Principal's Message

Yearbook Message - 2001/2002

My congratulations to the creative students who have worked so hard to produce an outstanding yearbook. The result of your talents is a lasting memory of the Westview school year 2001-2002.

This has been a dynamic school year at Westview. Westview students have been involved. We have watched them participate in Canada's FIRST Robotics Competition. They have excelled on many, many athletic teams, and have produced outstanding artistic and musical events such as Showcase 2001.

Many, many clubs such as Students in Action, Chess Club, Webmasters, Fitness Club, Library Club, bring the school alive. I am extremely proud of all the Westview students who have contributed significantly to our school community from the PPC students who visit the York Life Care Centre and give to the seniors each holiday season to the many students who participate in the Homework Clubs in our feeder schools.

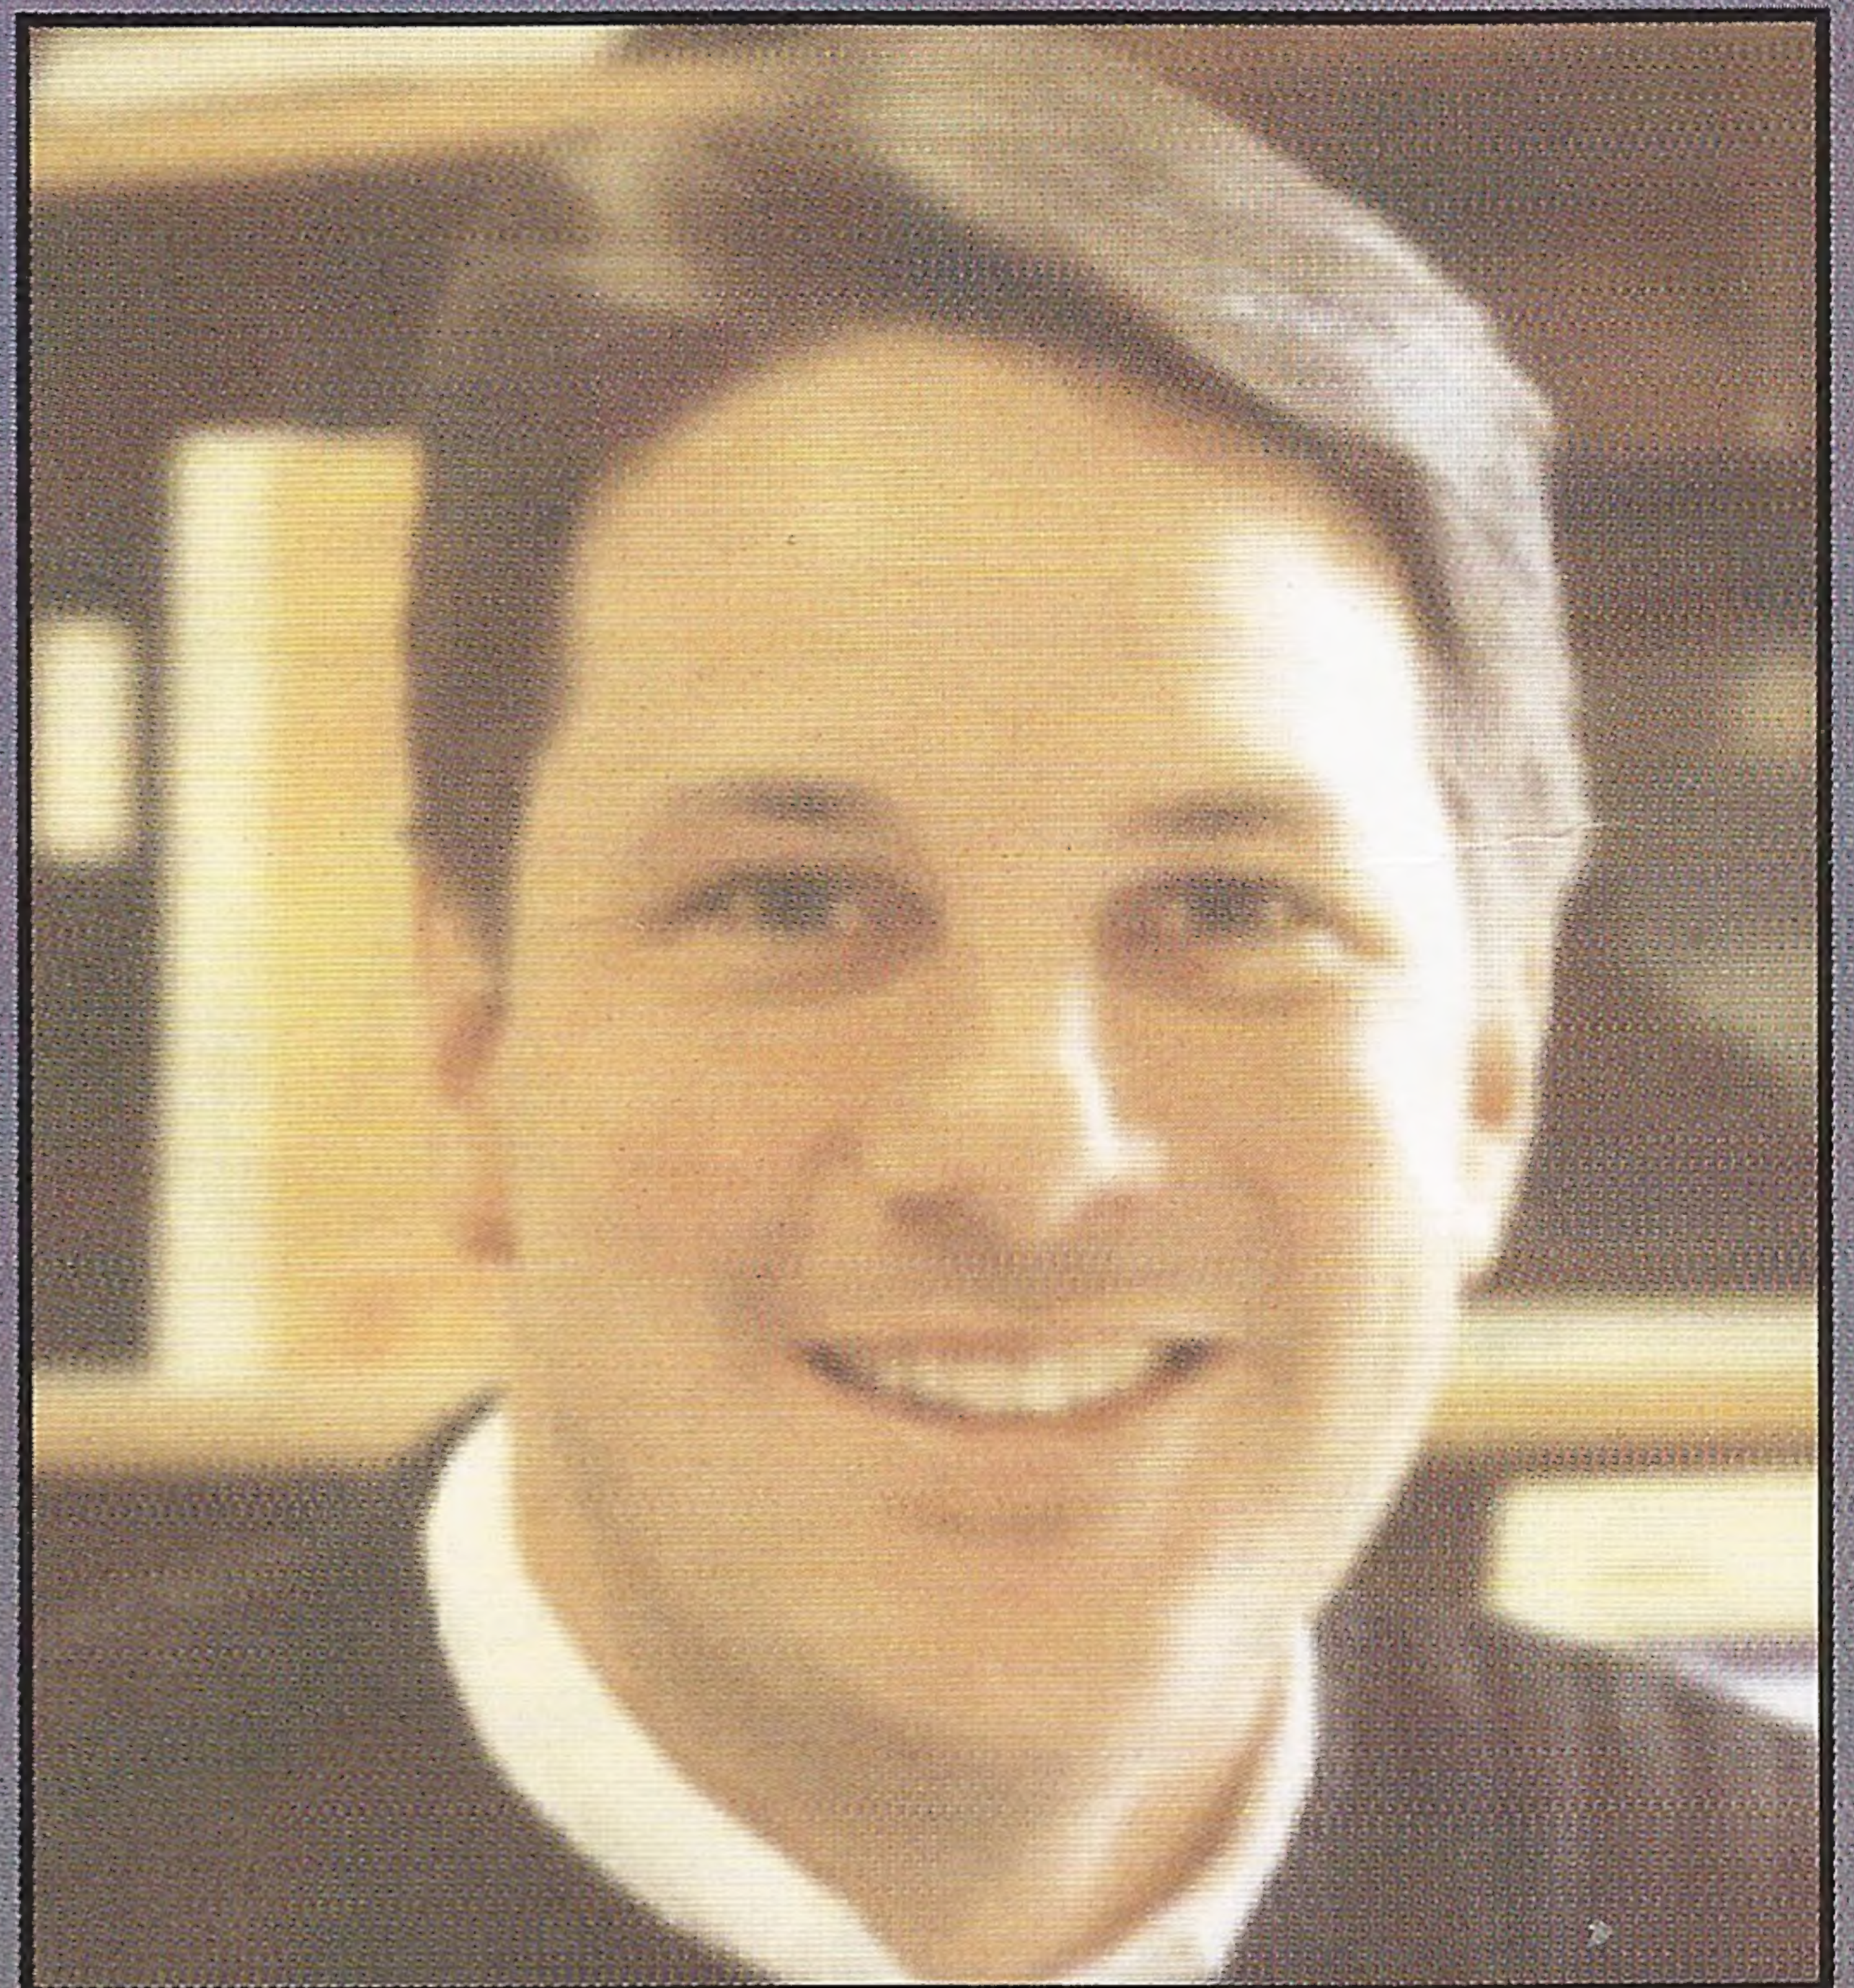

Best wishes to our graduates and many thanks for their significant contribution to school life at Westview.

Many, many thanks to the fine educators at Westview who work very hard in the classrooms, and the co-instructional programs to create a wonderful learning environment for the students at Westview.

On behalf of the administrative team - Ms. Kurzydowski, Ms. Zimny, Mr. Jones, Ms. Santos and Mr. Palermo, I congratulate all on another successful school year.

COMMENCEMENT

VALEDICTORIAN SPEECH

June 28, 2001

by Jessica Campos

Good evening, honorary guests, staff, families, friends and the Graduating Class of 2001. We are here tonight to celebrate the achievements and success of all the wonderful young adults in the gowns.

I can remember teachers telling us that high school goes by so fast. I did not believe them and I am sure you didn't either, but the last four years have certainly flown by. When writing this speech, I had to think of some memorable moments at Westview. I will be honest - I had a hard time thinking of something. All that came to mind was the infamous grade nine stink bombs (some of you might remember that) when we were all so immature. But we have learned better and we have grown up.

It is typical as a child to ignore the idea that one day we might become responsible, but here we are graduating from high school, just about ready to enter the "real world". It is a big change in our lives. Some of us resist change while others welcome it. The reality is that change will come; it is inevitable. How are you dealing with this upcoming change? I'll tell you that for me it is a bitter-sweet moment. I do not always welcome change. So I thought of something that might help us all deal with the idea that we are on the brink of adulthood. Picture the word CHANGE in your head:

C is for Challenge

Everyday we are faced with a challenge. How can we overcome it? By not running away, we face it even if it means asking for help. The fear of what lies after high school can be a challenge for many of us simply because we have gotten so comfortable here. Our success at overcoming a challenge greatly depends upon our approach. Have the confidence to take the challenge head on.

H is for Hope

Sometimes hope gets lost in the rush of everyday life. My definition of hope is a positive expectation for the future. We have to hold on to some hope because it greatly affects the way that we look at our future. Even if you do not get into the university of your choice, or if you do not get that dream job, or the scholarship you have been working so hard for, stay positive because with hope you can continue to have confidence in your abilities despite temporary setbacks.

A is for Attitude

How we treat others and how we look at the future greatly depends on how well we accept ourselves. We are not perfect. Remember this when you start to be too hard on yourself. We all have certain things that need fixing or refining. Remember this when you are dealing with others. Have a good attitude towards others even when you think they do not deserve it. If they treat you disrespectfully you do not have to act the same. People will try to bring you down, especially when you are successful. Rise above the negativity.

N is for New Beginnings

Everyday that you get out of bed it is a new day, a new beginning. It is another opportunity to learn new things, try new things and meet new people. Instead of looking at change as "why is this happening?" look at it from a different angle, one where you can see that change is a chance to do things differently, maybe even a chance to rewrite your future.

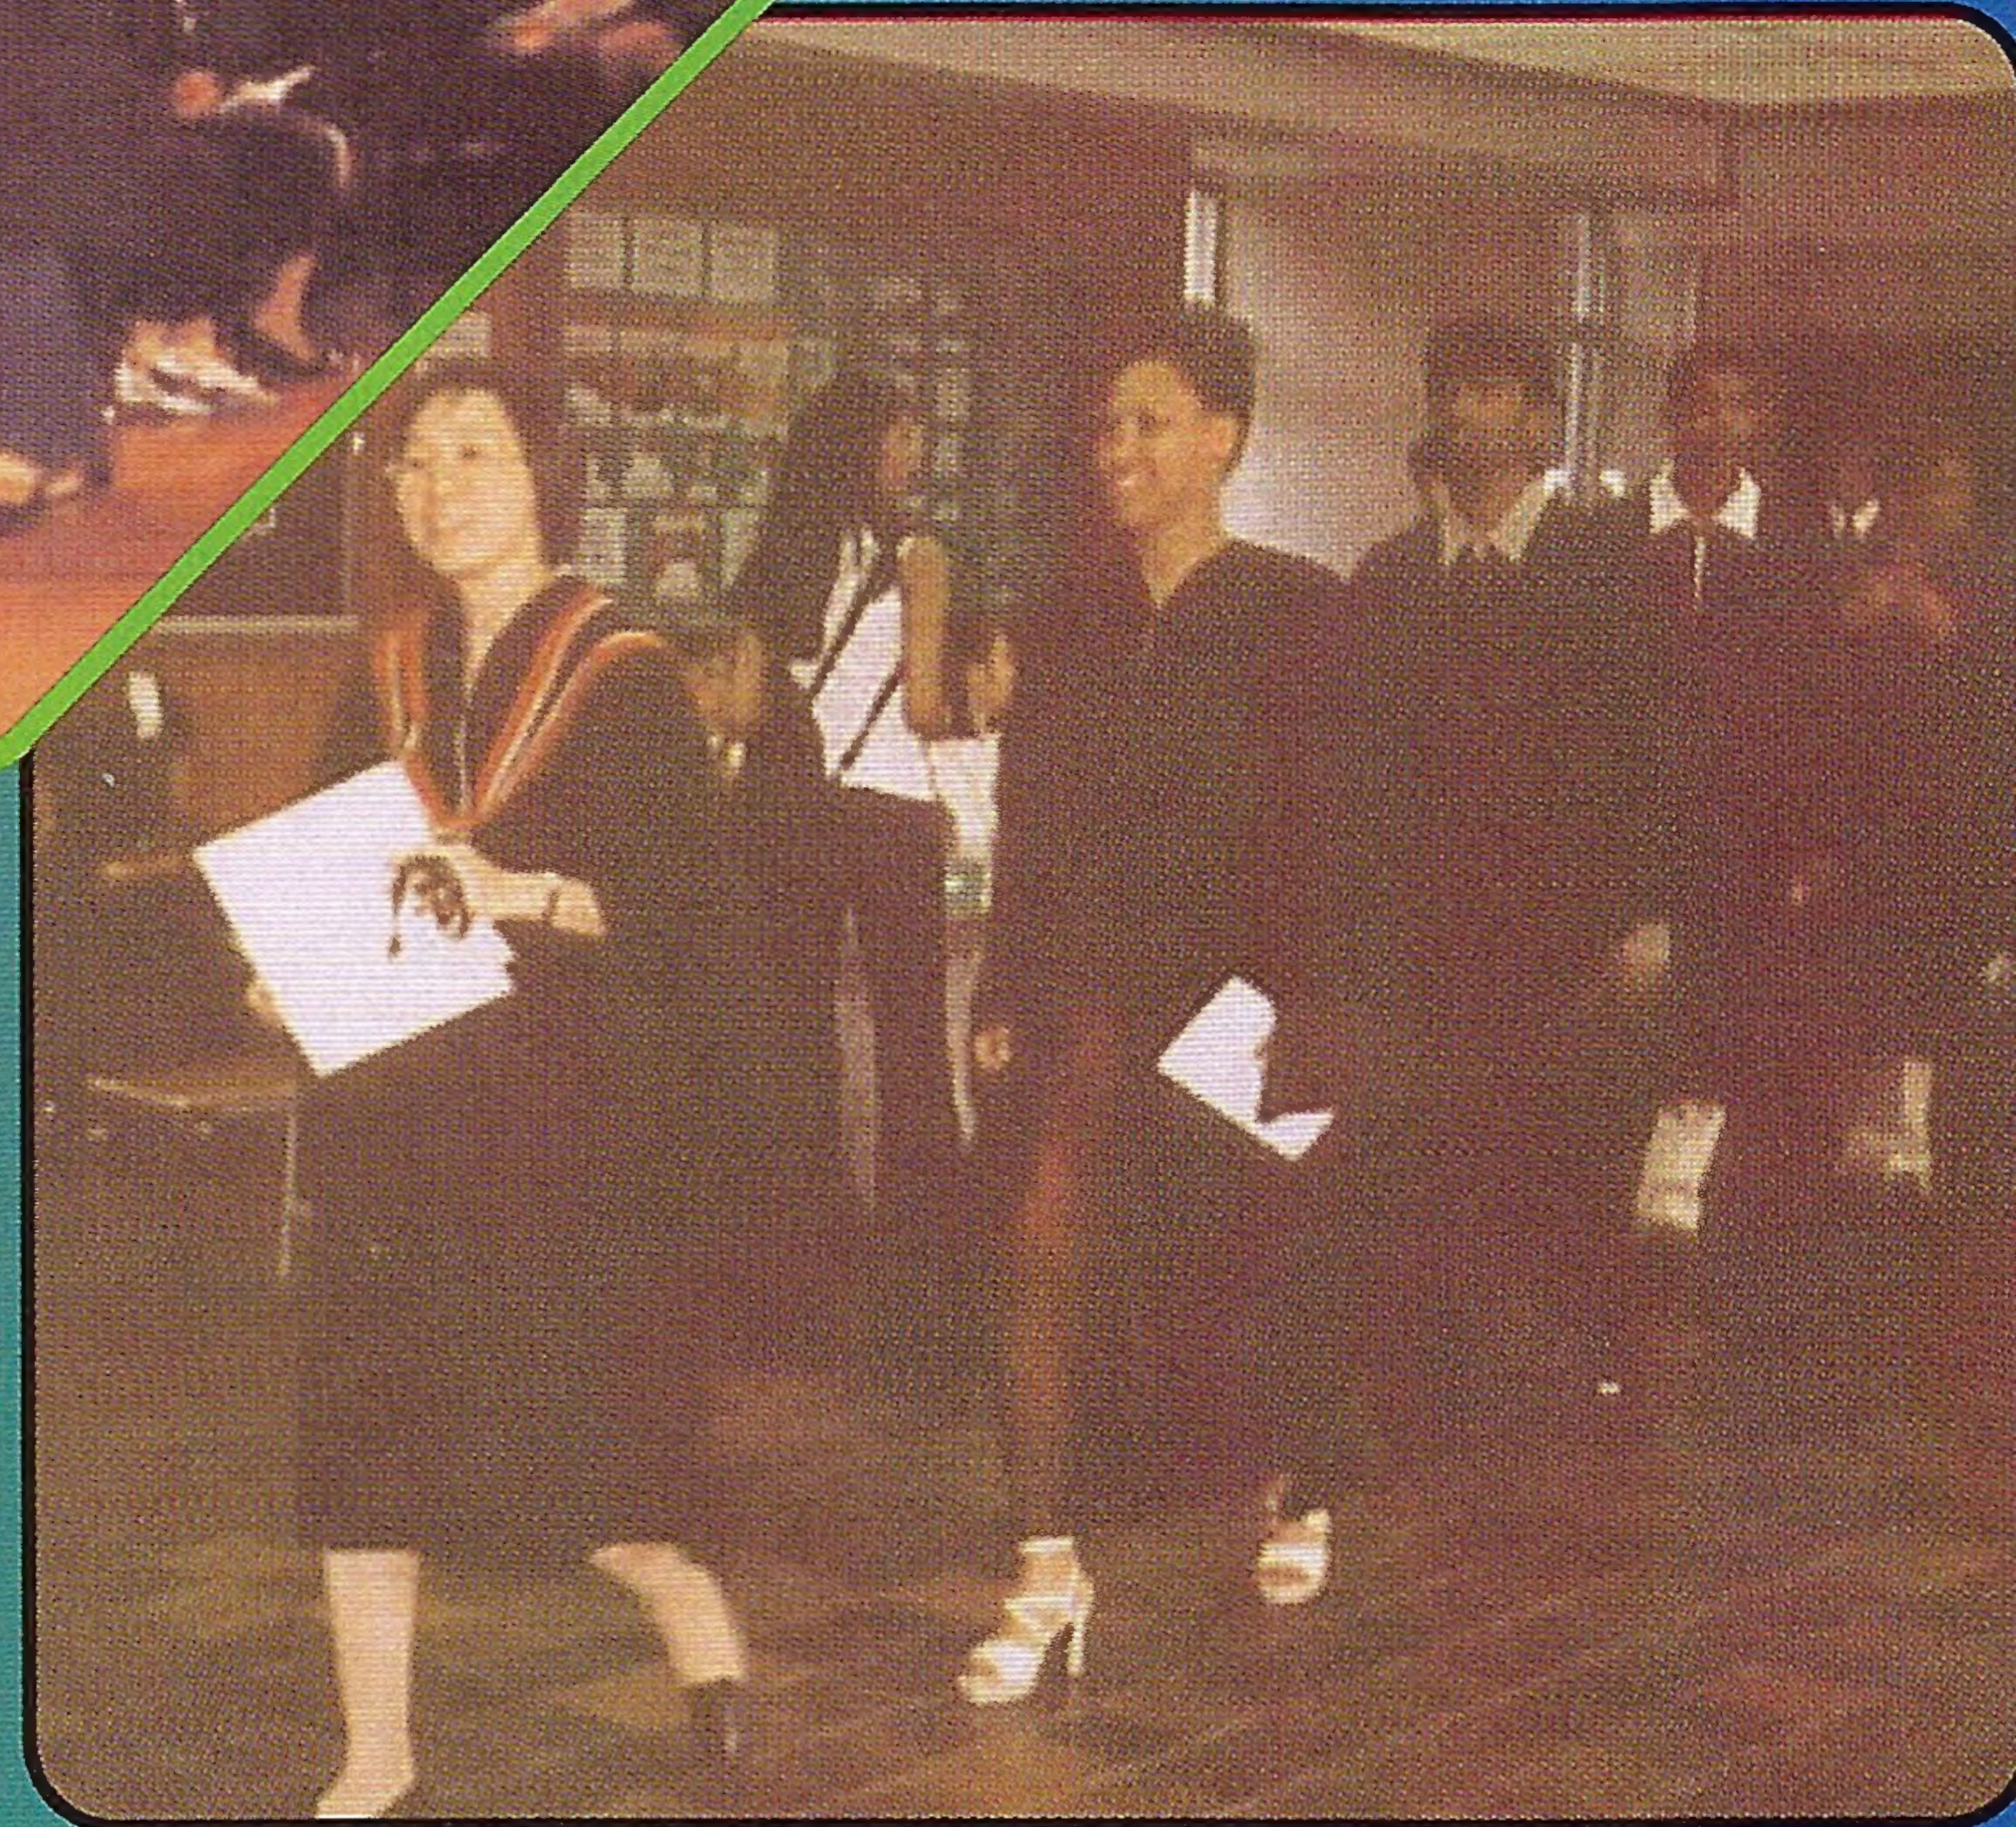

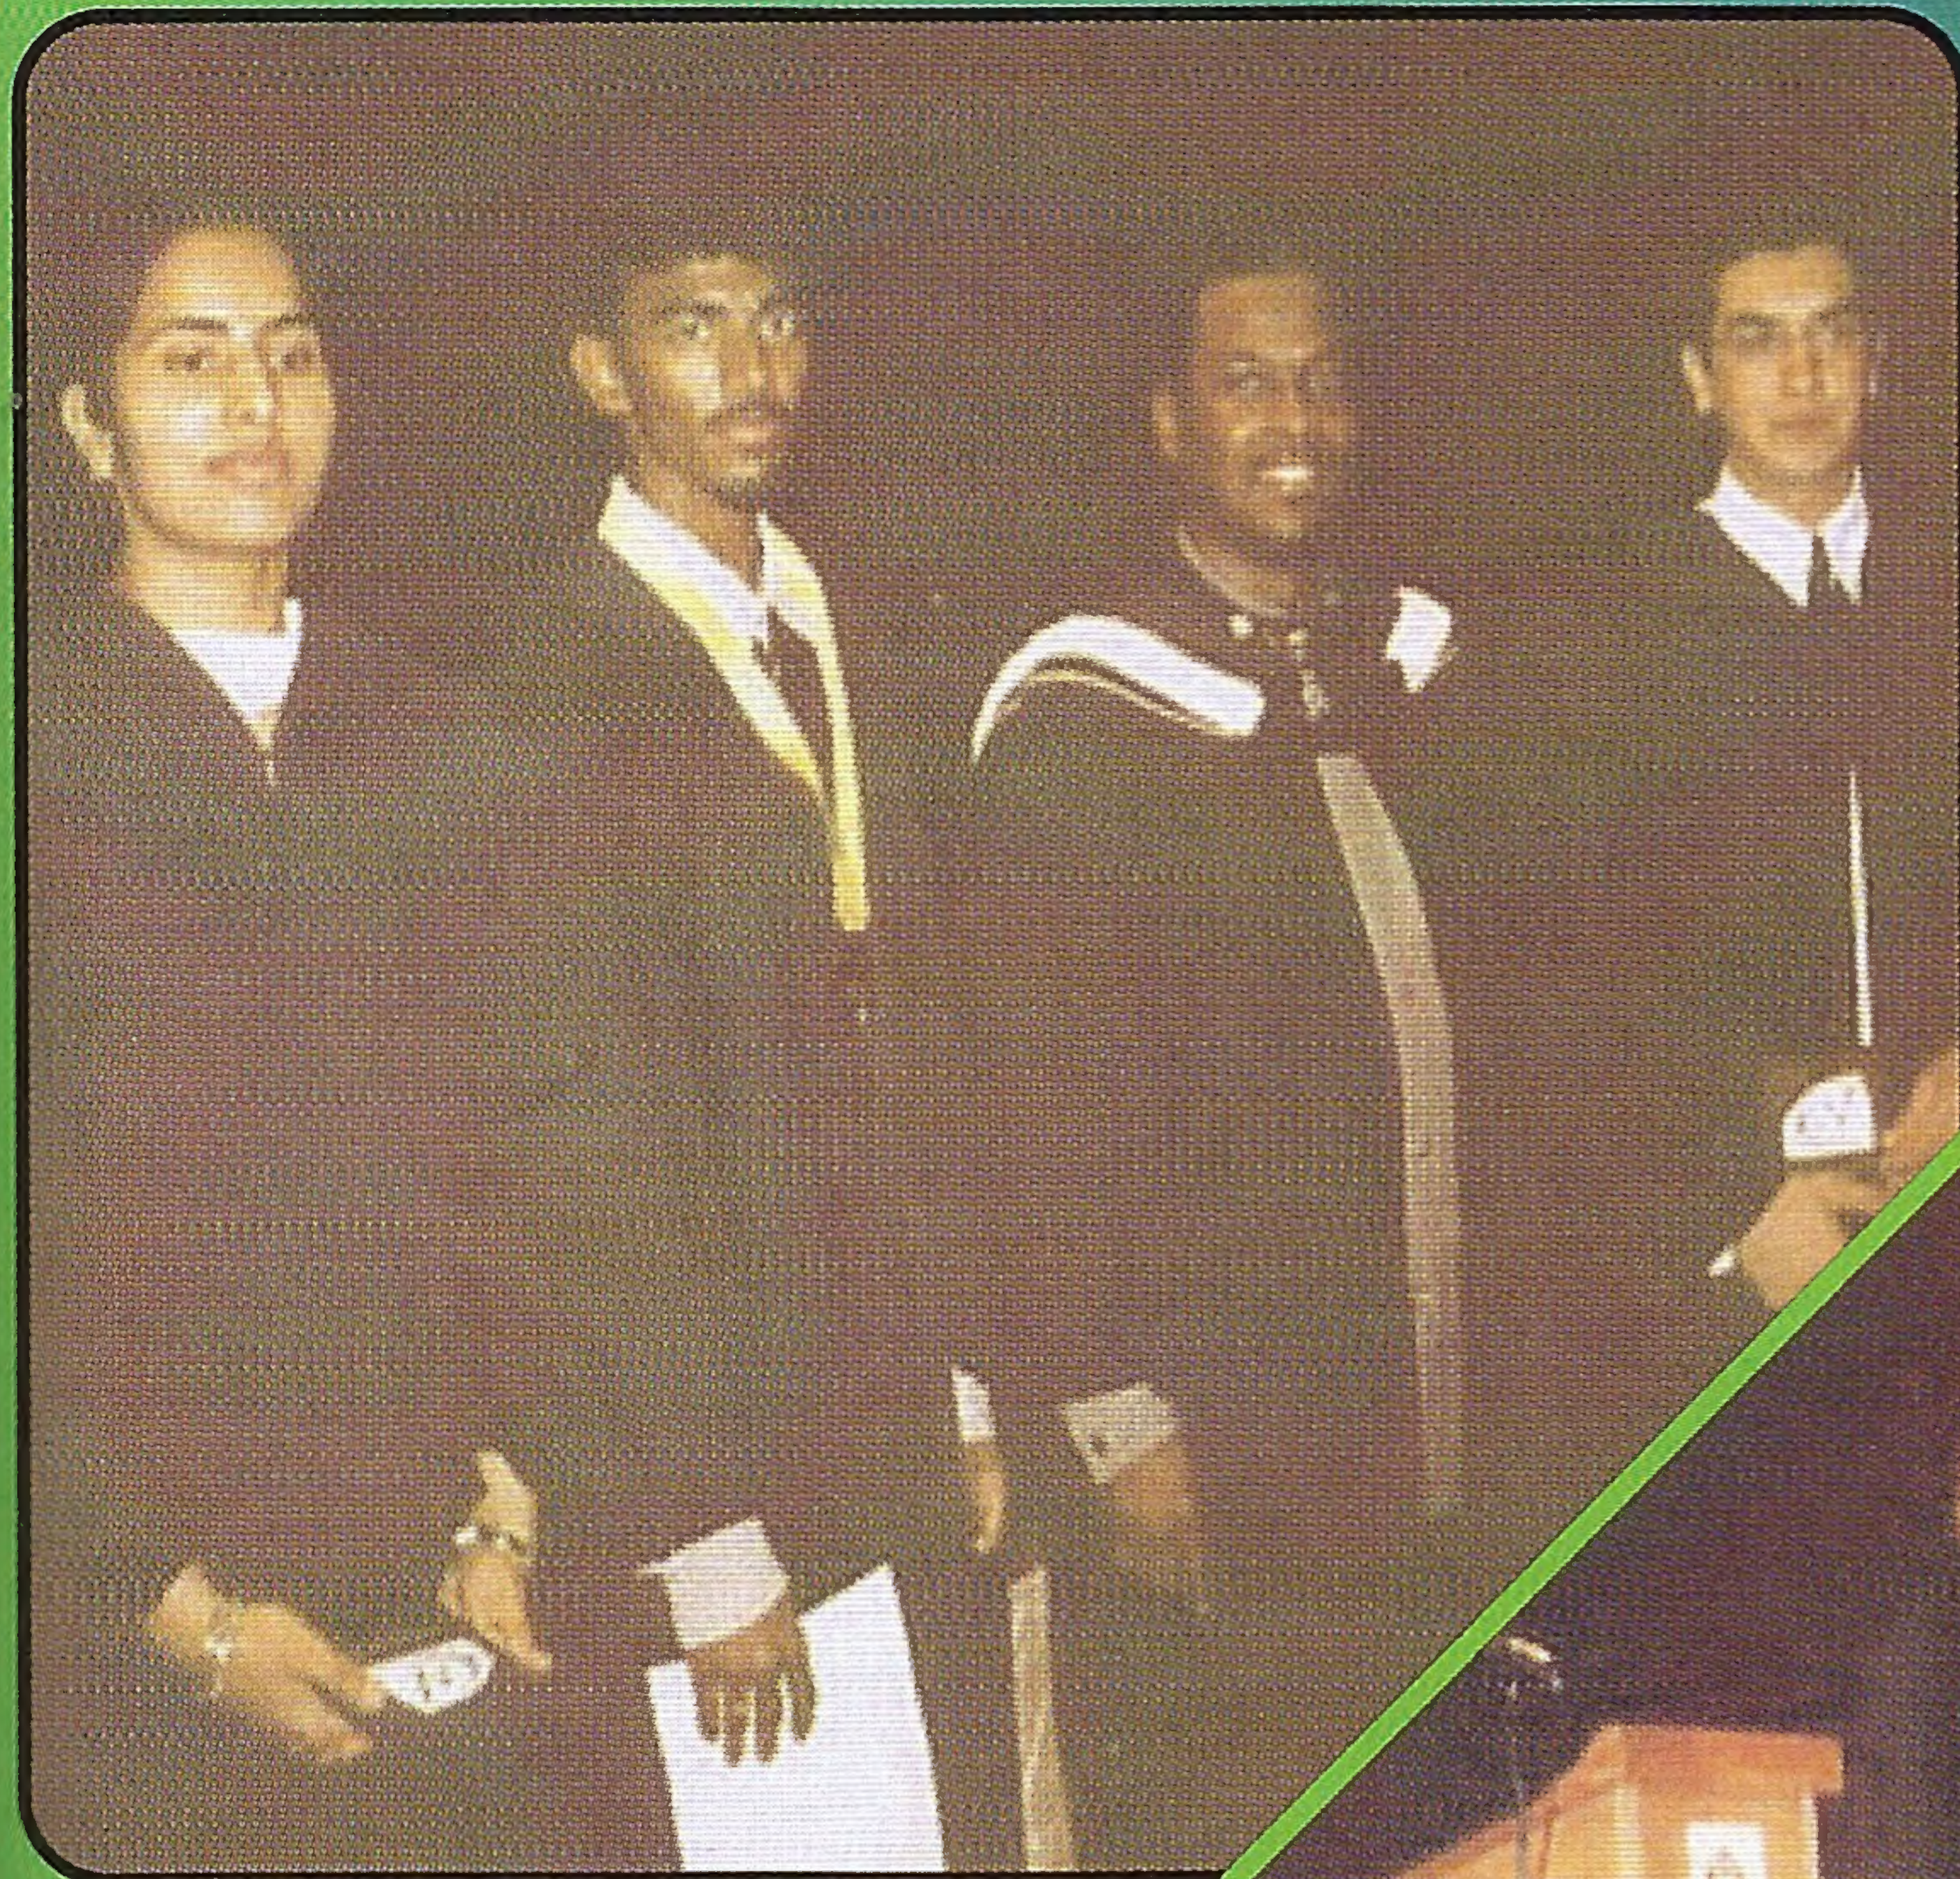

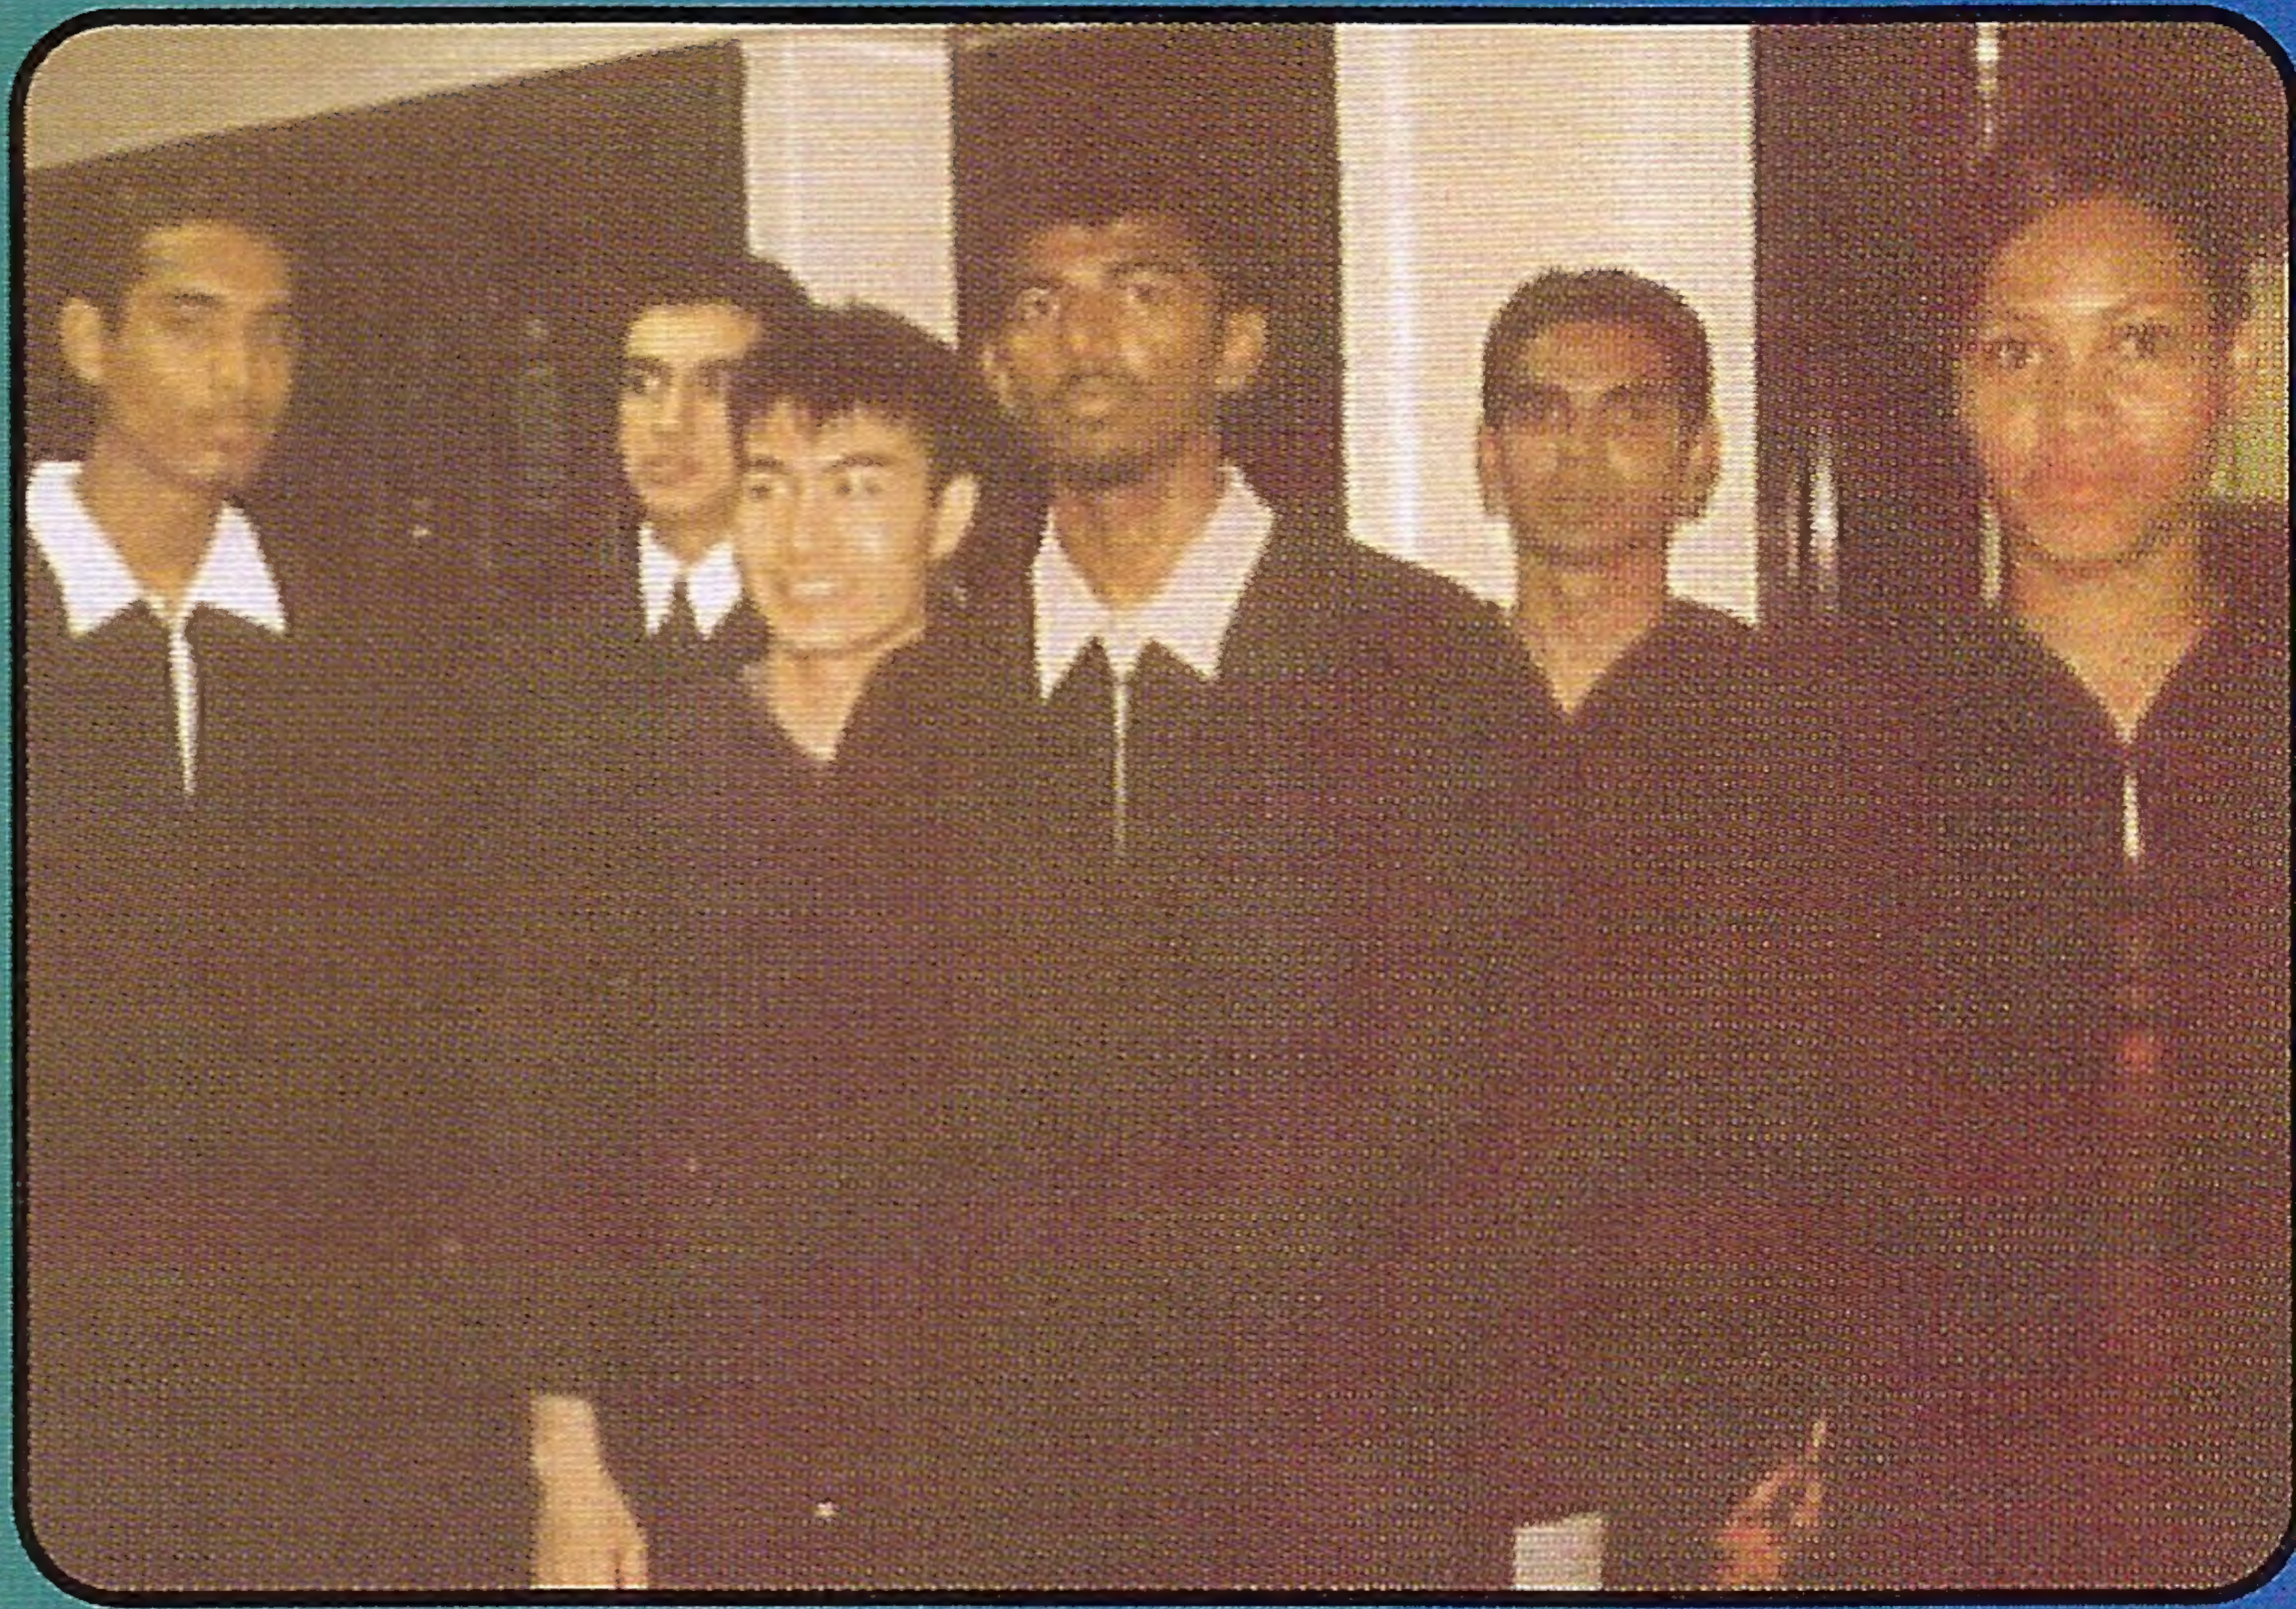

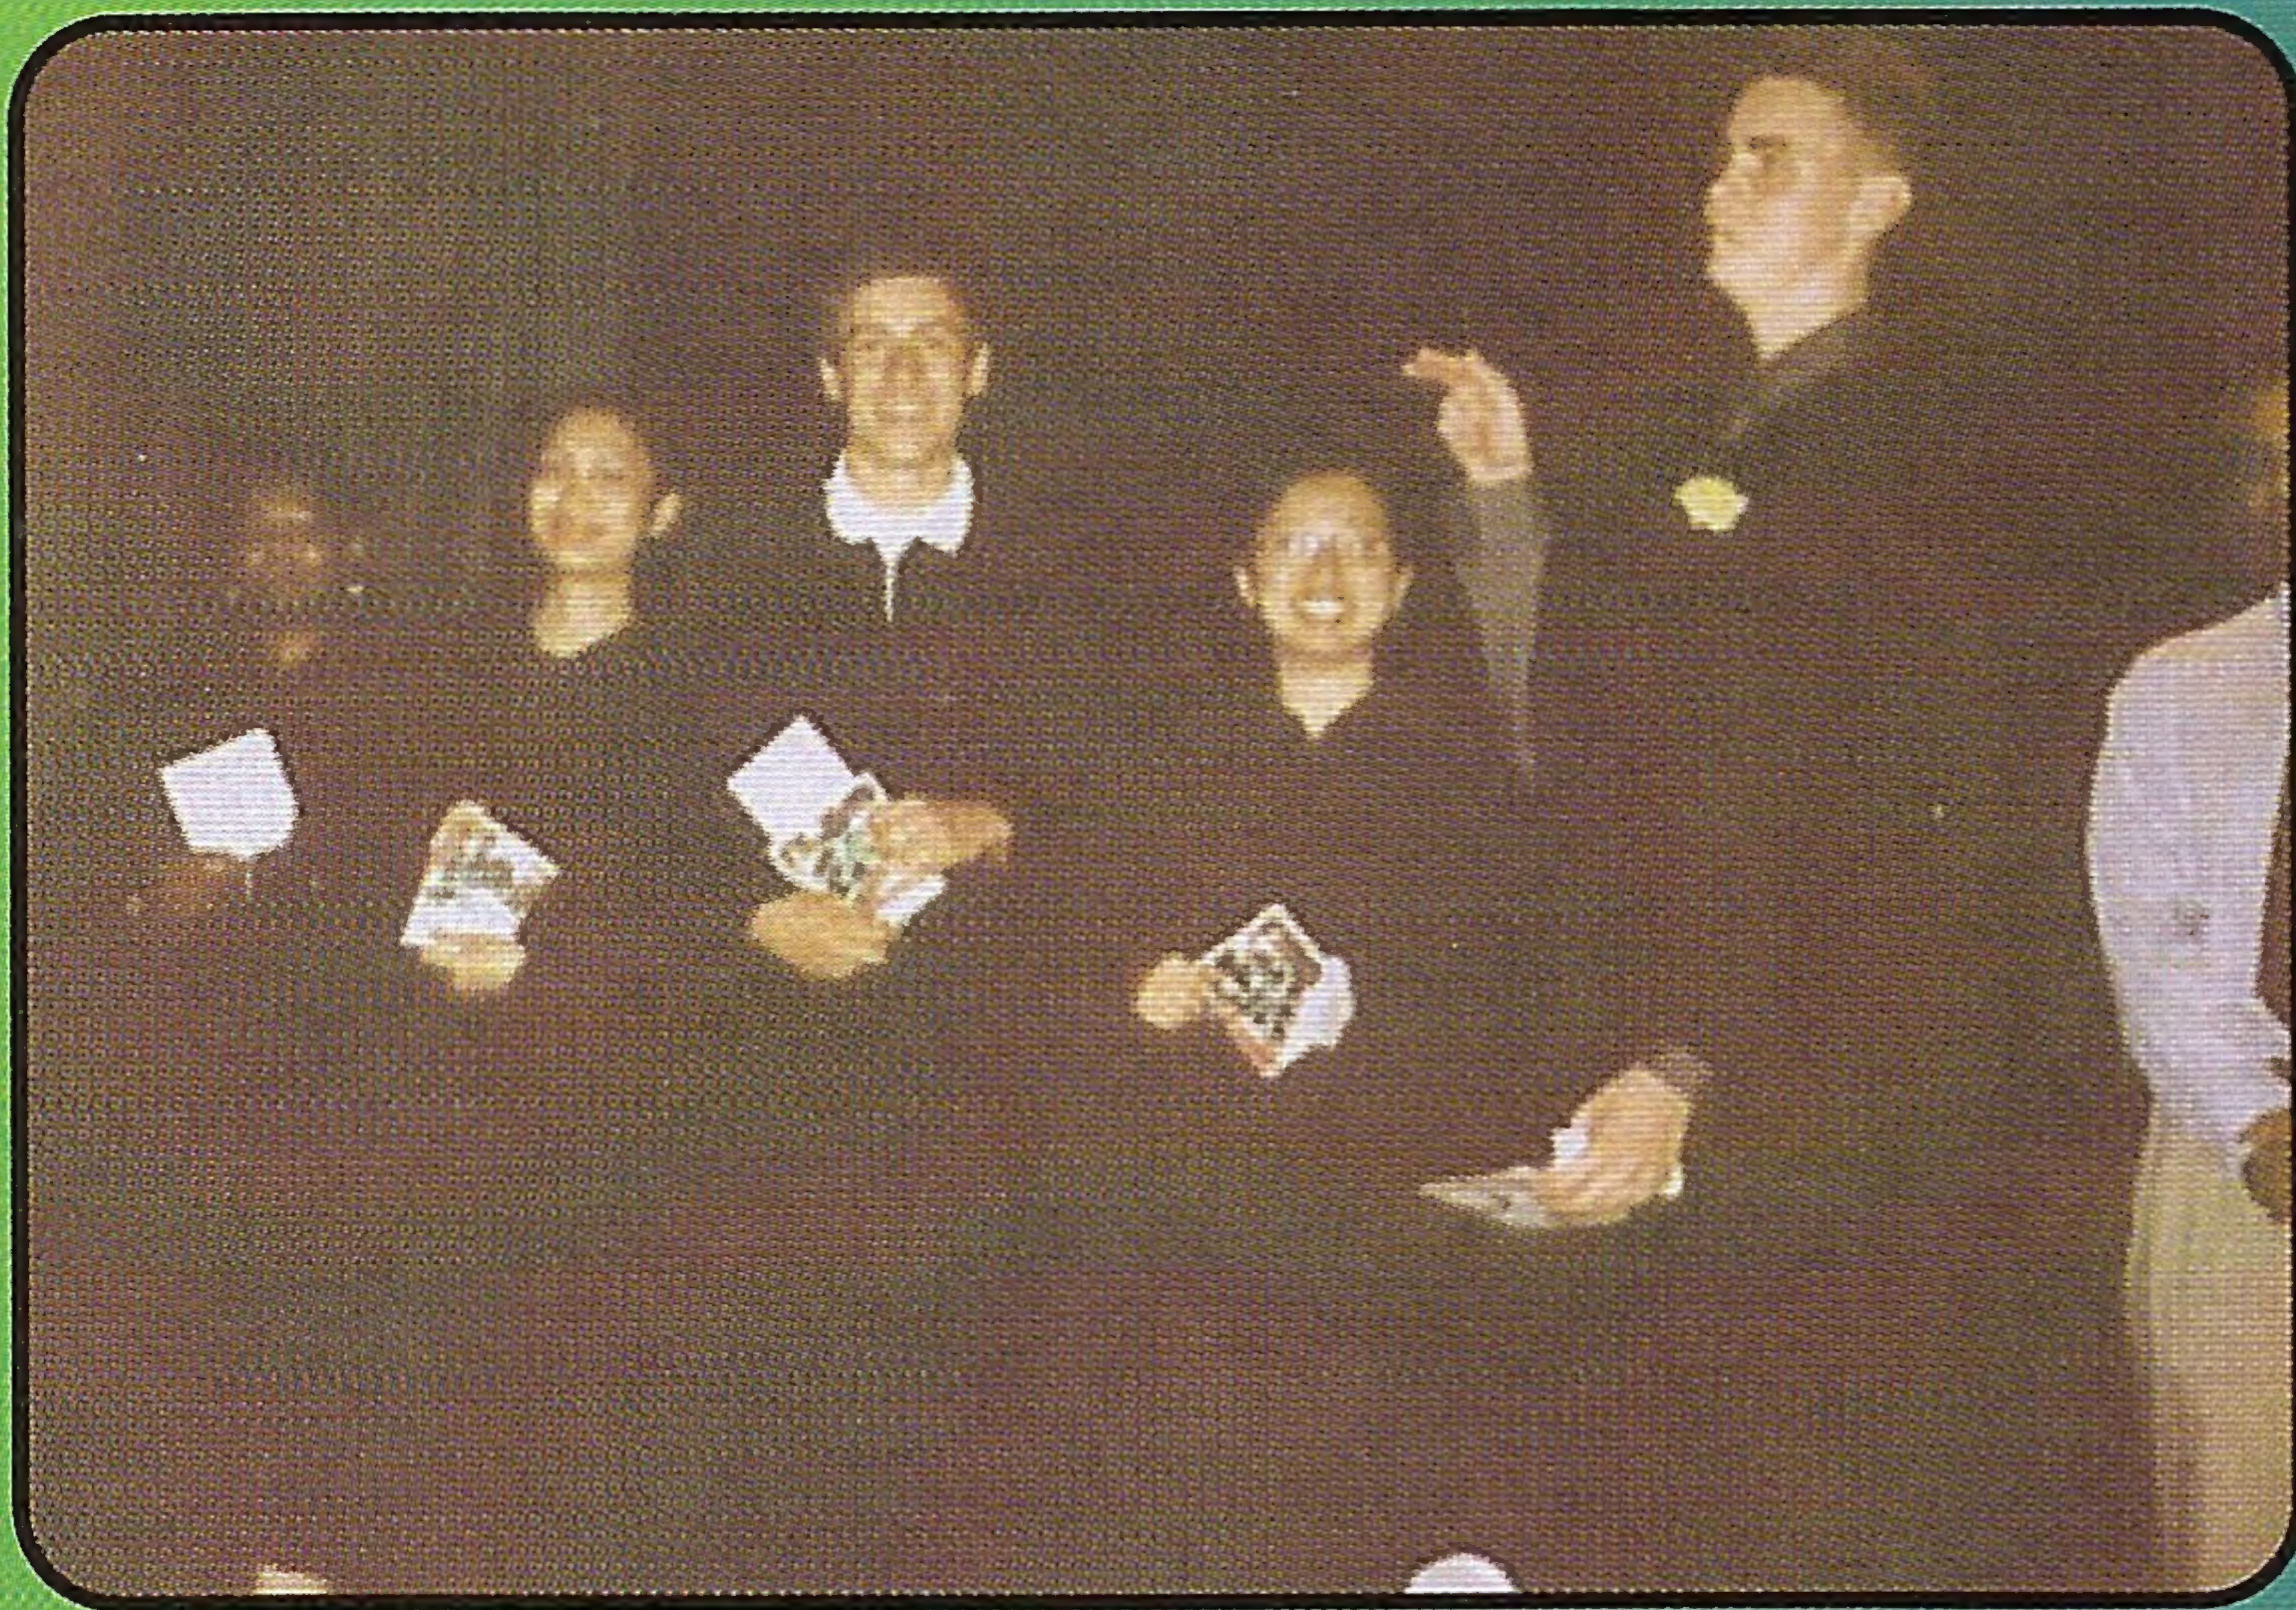

G is for Growth

We have all grown, especially over the last four years. Our interests have changed and as a result we have made new friends. There are friends that come into our lives for a reason, others for a season and a few for a lifetime. Take a second and think of a friend who has left a significant footprint on your heart. If they are still around do not let them leave without telling them how much they are appreciated.

E is for Excellence

We are all capable of it. I am going to tell you something and I do not want you to dismiss it from your mind: Woody Allen once said, "Success is 80% showing up." The fact that we are here today, that we showed up for the past four years (even when we didn't want to) and that we are finally collecting that piece of paper and walking across this stage, proves that we have been excellent over the past four years. We are all capable of succeeding.

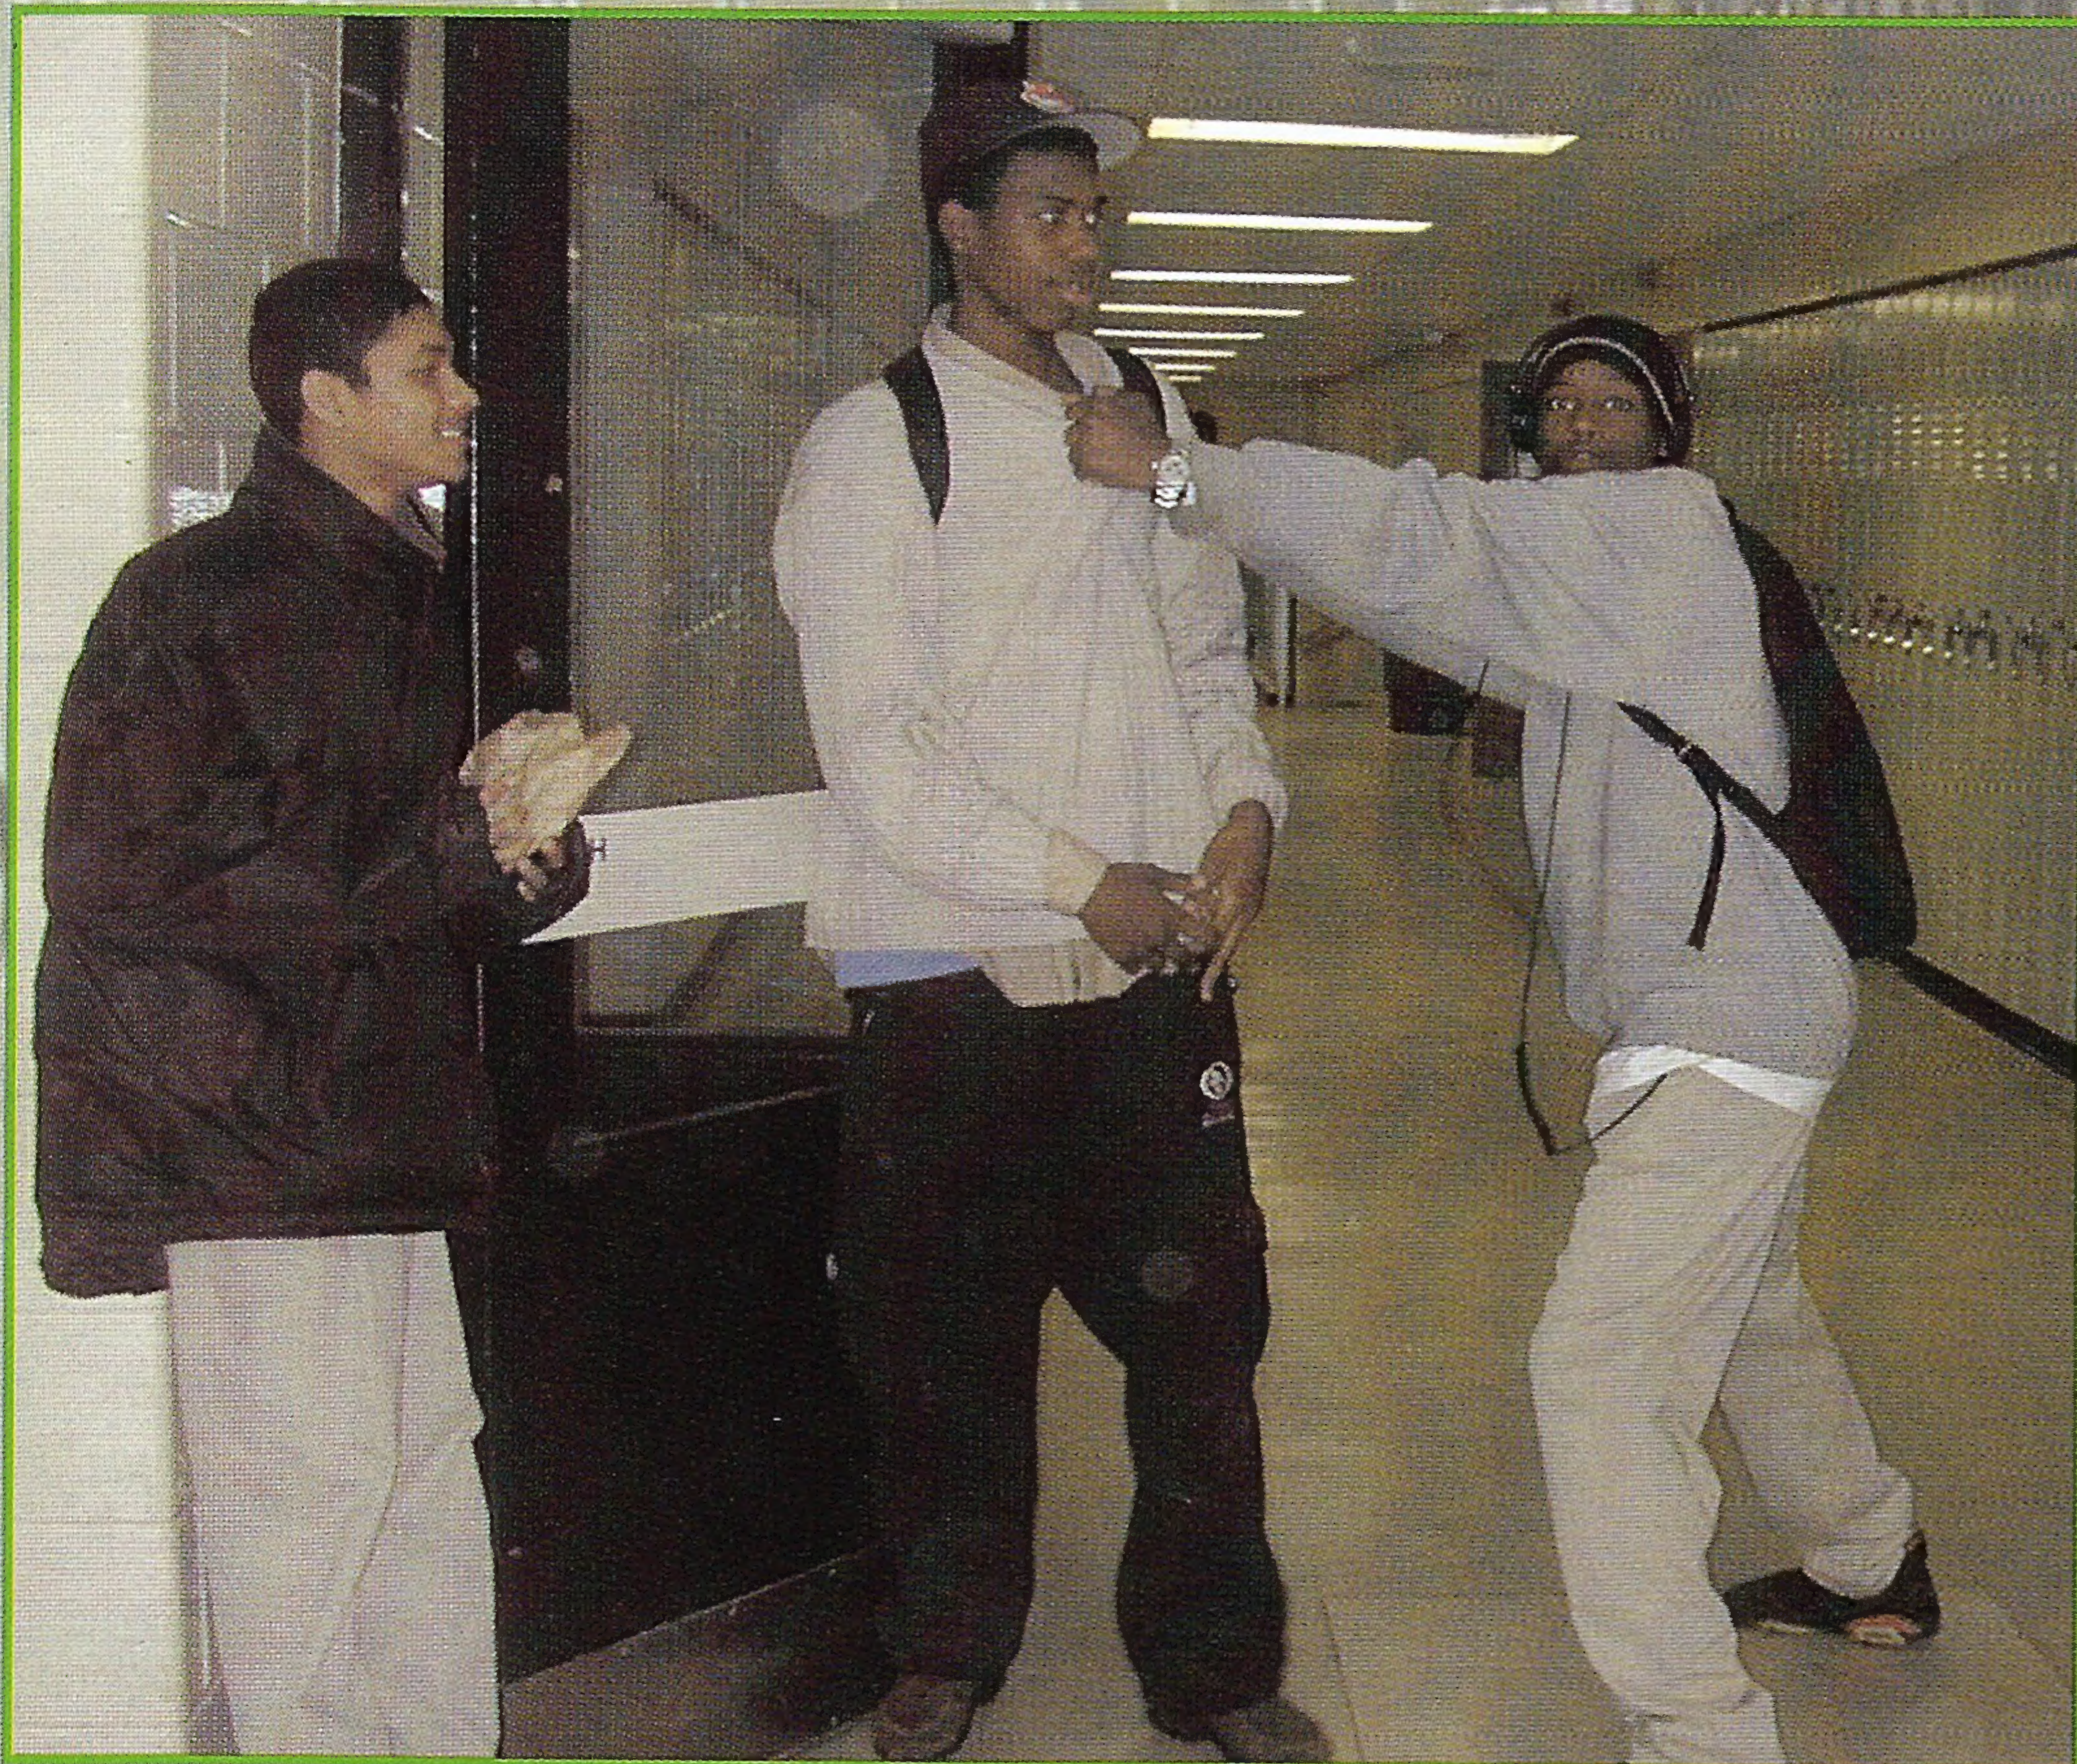

We have been looking forward to this day for so long and it is finally here. For those of us coming back for OACs, we are getting closer to leaving the school we have loved and hated at the same time. For those of us going off to college, to work or to "discover" ourselves, remember that we all have an important role to play in life. I mentioned that success is 80% showing up. I hope you're interested in the other 20%. It is trying your best. "Success is 80% showing up and 20% trying." Graduates of 2001, congratulations on your past, present and future accomplishments.

TEACHERS VS STUDENTS

BASKETBALL

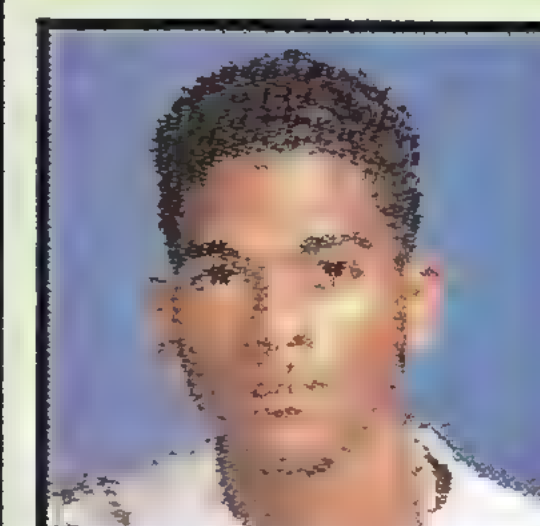

On November 29th, the long awaited all-star basketball game between the teachers and the students went down. In a close, back-and-forth game the teachers had the students on the ropes until old age got the better of them and the students began a comeback with an eruption of three pointers led by Tone Holmes and Gary White. In the end, "youth and speed" beat "age and experience". Teachers, don't quit your day jobs!

Shami Phagoo

"It took hard work to organize the all-star basketball game, but all the hard work really paid off. I would like to express my thanks to my boy Dennison Collins for his guidance and support. The all-star game shows the talent of a great school that has great ability. Thanks to everyone who supported the game and everyone who played. Westview is great. Don't forget you can do great things."

Westview's

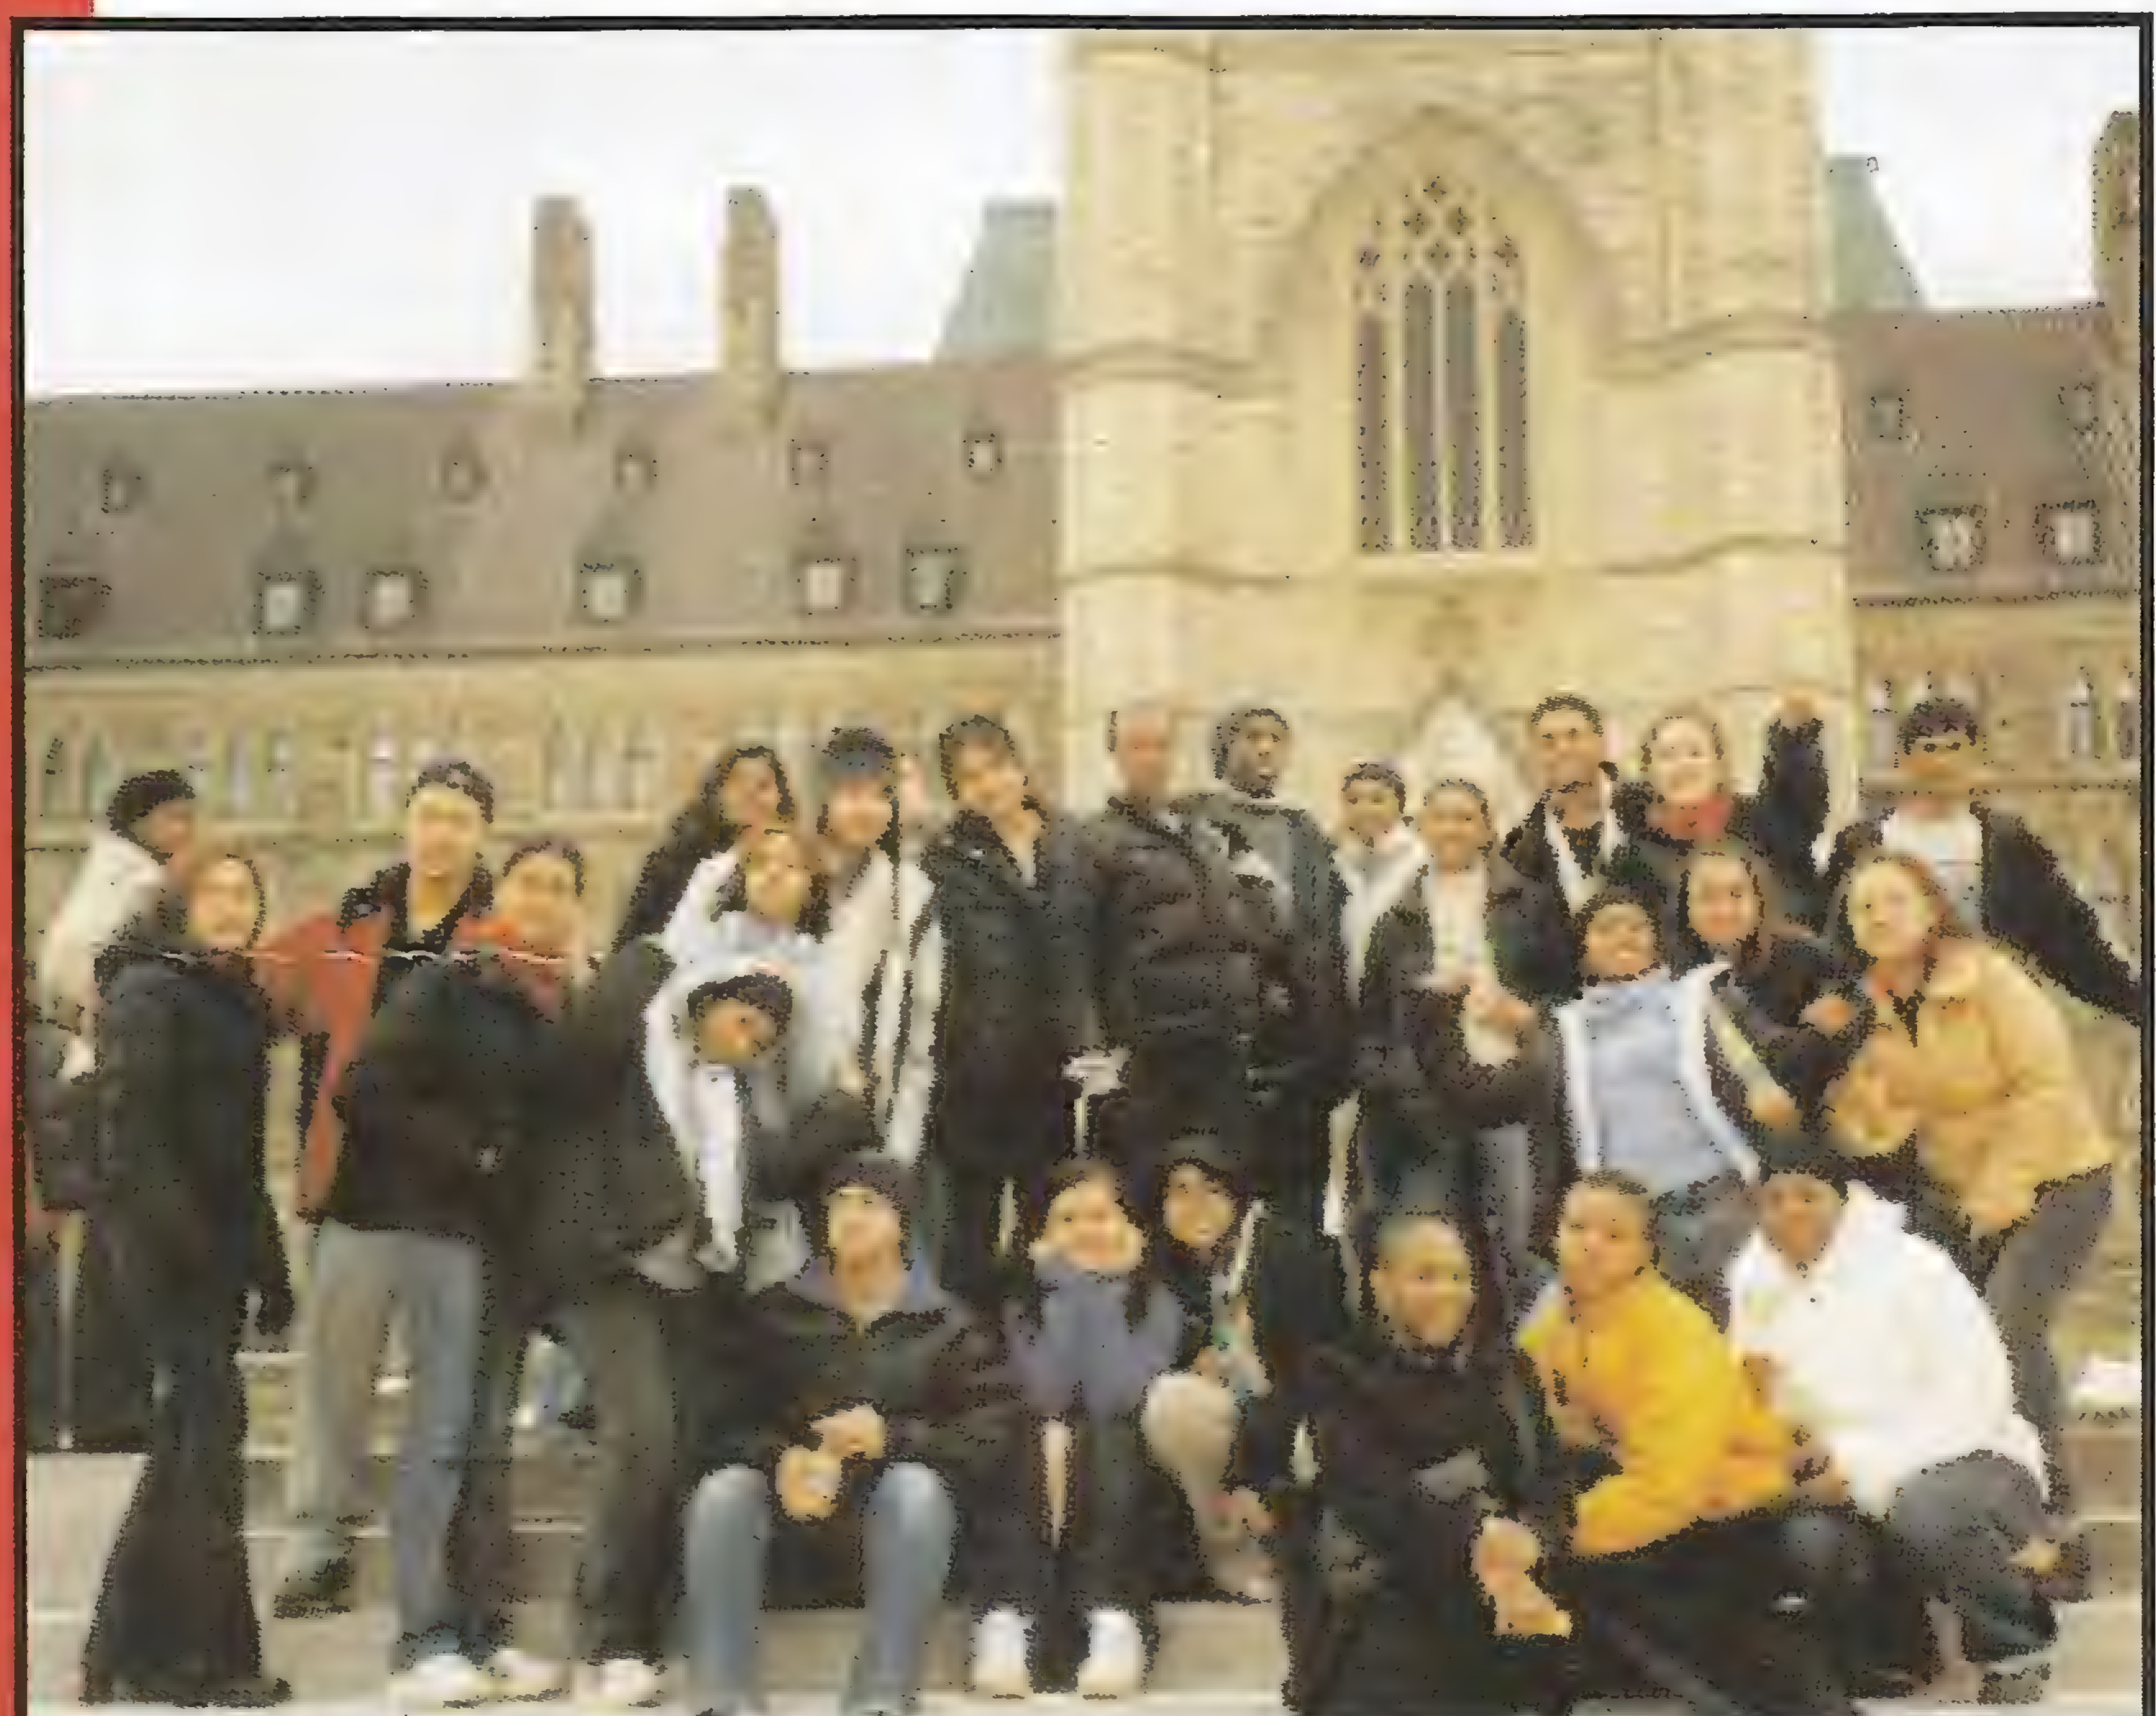

Westview's Visit to Canada's Capital

An illustrious contingent of Westview's senior students, accompanied by Ms. Santos, Ms. Eng and Mr. Taborek, decided to leave balmy Toronto to brave the more extreme northern temperatures of our nation's great capital.

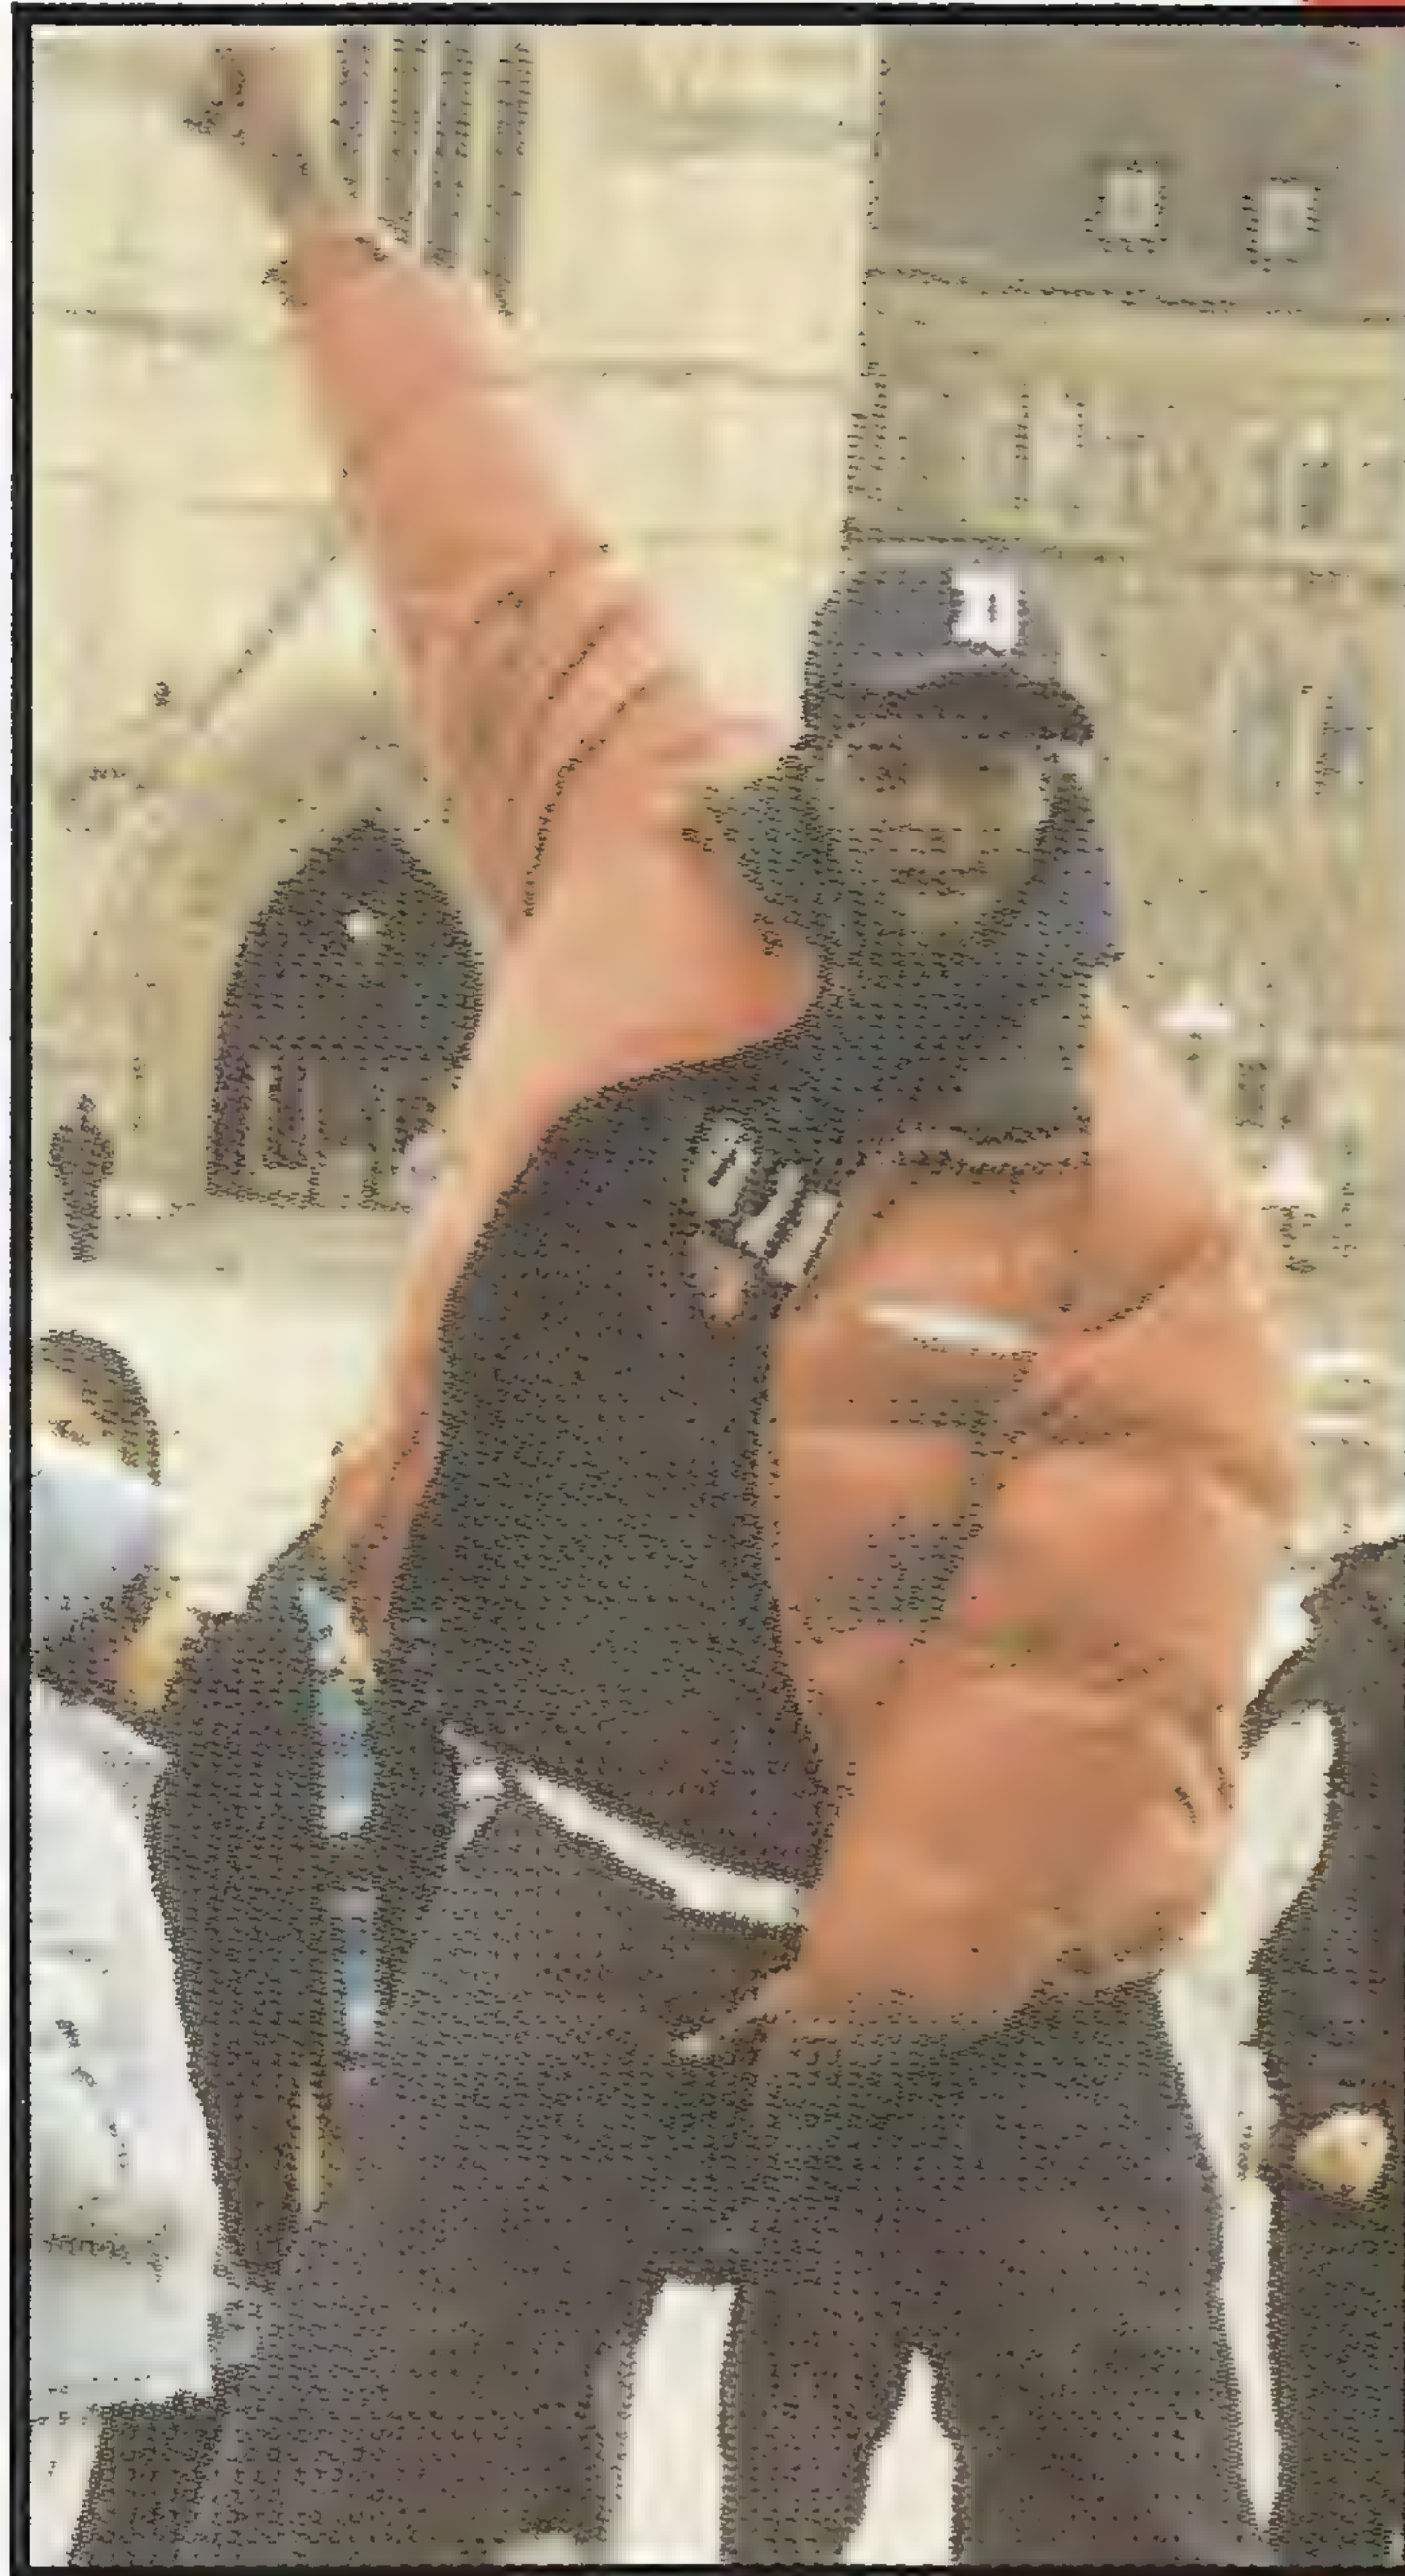

After a five hour bus-ride, the bundled up Westview delegation was delighted to be met with a temperature of 5 degrees, which was warmer than Toronto! They started their sight-seeing immediately by going on a tour to the Parliament Buildings and a number of stores. Afterwards, they settled into their rooms at the Sheraton Hotel, and then headed out to find a meal.

The next morning, after their now infamous 10:30 curfew, the students were very well-rested and ready to take on more of Ottawa's famous tourist sites. Westview visited the Canadian Civilization Museum, where they learned about early exploration and native cultures. After many hours of learning, Mr. Taborek and the (cute) bus driver decided to take them on a bus tour of many of Ottawa's famous tourist sites and then to the Rideau Centre where they had lunch and did some shopping.

The students would like to express their appreciation to Mr. Taborek, Ms. Eng and Ms. Santos for accompanying them to the nation's capital. The trip to Ottawa was a great experience for both students and staff. It was certainly the highlight of the year.

Westview's Yearbook Executive is proud to present the 2001-2002 Westview Wildcat. The experience was at times frustrating, fun, and frightening, but ultimately fulfilling. Out of the original fifty-eight Yearbook Committee members, eight of us actually took it upon ourselves to do more than just talk and have bake sales. We've learned the fundamentals of publishing, as well as a few life lessons:

1. You must earn respect, not expect it.
2. Don't take on commitments unless you intend to see them through.
3. It takes individual commitment - not committees - to get things done.
4. You can show up 80% of the time and still be useless.
5. Whenever you can get something for free, take it. Thank you, Pizza Pizza!
6. When in doubt, ask Shami.

Buy a Yearbook and I promise I'll go away!!

WHY IS THERE SO LITTLE TIME TO STUDY?

A year has 365 days for you to study.

After taking away 52 Sundays, there are only 313 days left.

There are 50 days in the summer that are way too hot to work so there are only 263 days left. We sleep 8 hours a day in a year, which counts up to 122 days, so now we're left with 141 days.

If we fooled around for only 1 hour a day, 15 days are gone, so we are left with 126 days.

We spend 2 hours eating each day, so 30 days are used in this way in the year, and we are left with 96 days in our year.

We spend 1 hour a day speaking to friends and family, which takes away 15 days more and we are left with 81 days.

Exams and tests take up at least 35 days in the year. Hence there are only 46 days left.

Taking off approximately 40 days of holidays, there are only 6 days left.

Taking off sick for a minimum of 3 days, there are 3 days left in the year to study!

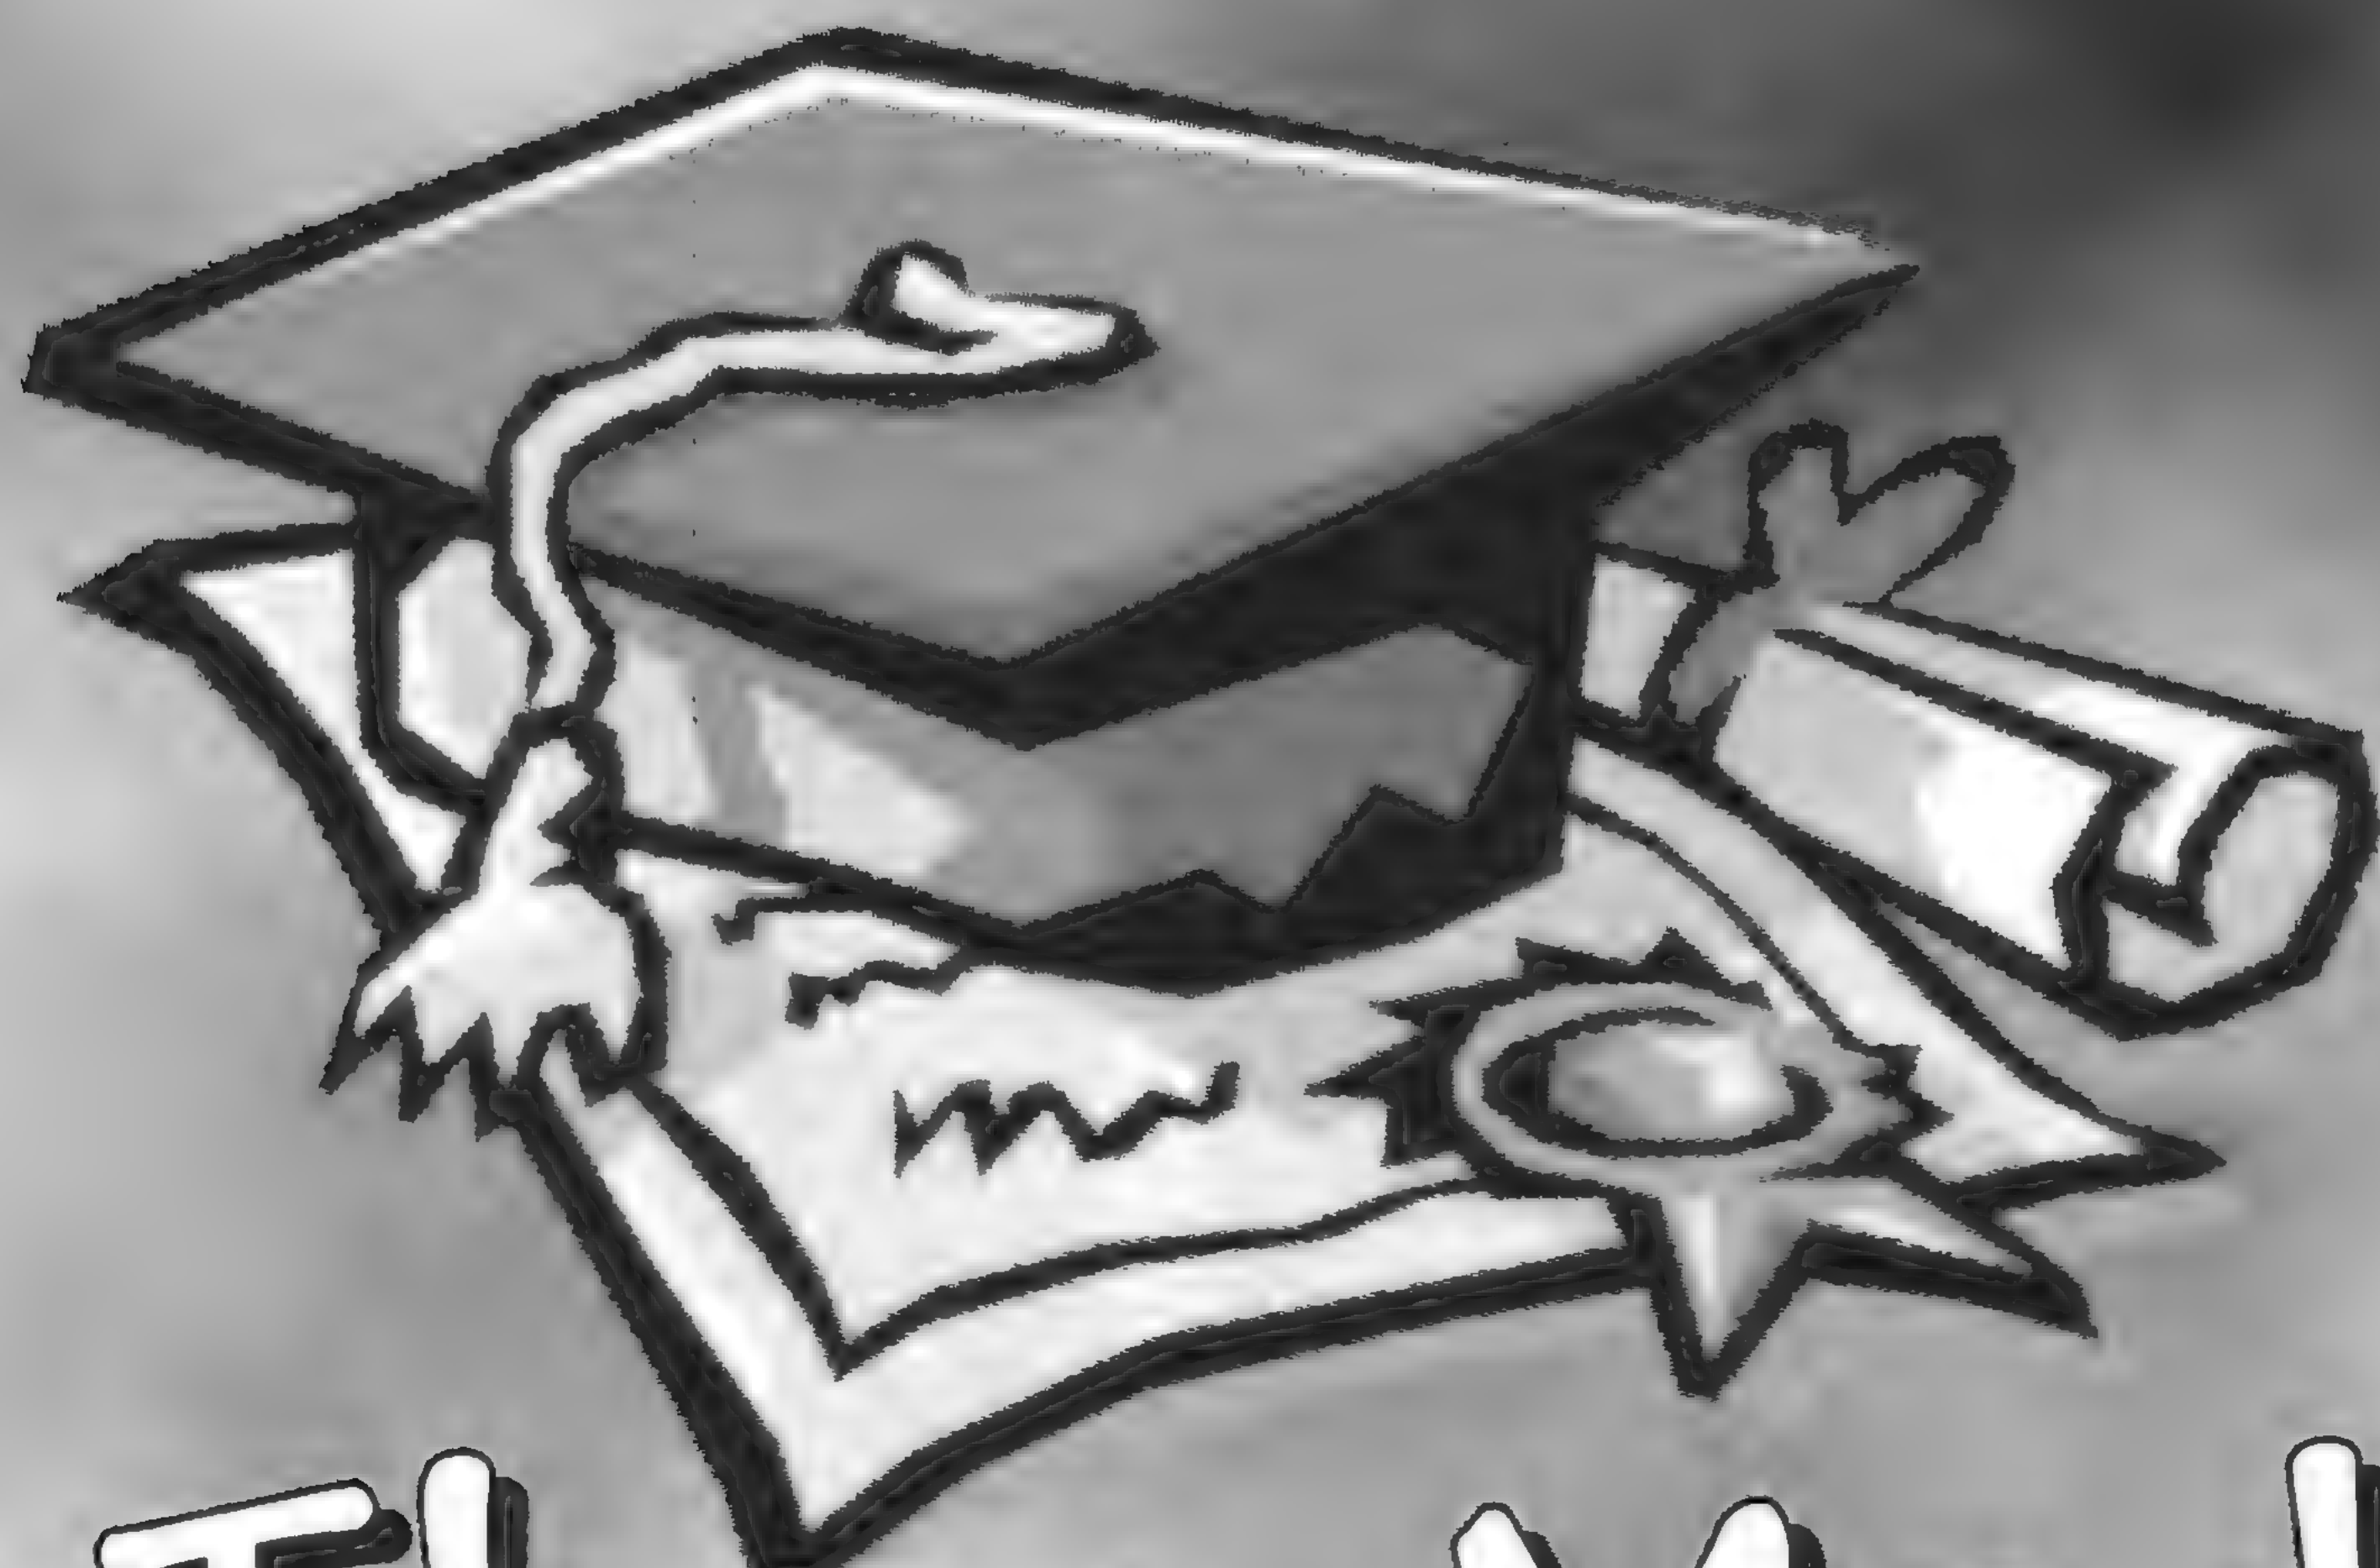

Let's say you only go out for 2 days! You are left with 1 day!

But that 1 day is your birthday... so...

Westview Graduates!

Sometimes they skipped, some-
times they studied, mostly they
slept through class.....

But They Made It

Just Smile

Pen strokes
 ink spreads
 black, blue, and red
 caress my white sheets
 with those thin lines
 while inspiration kisses me
 imagination fondles me
 waiting for love to find me
 perfume-scented letters
 tear-stained words
 im a love-a-holic
 write-a-holic
 my words are slurred
 my vision slightly
 floating with the clouds
 mood swings with the leaves
 my head on my shoulders
 my dreams painted on my sleeves
 will i go on
 or will i leave with the sun
 reflecting the moon
 catching stars
 fishing for wishes
 midnight bath in the Nile
 ending all my thoughts
 with a smile :0

Yearbook Rap

Sara and Phanary were talking at lunch,
 And had an IDEA they liked a whole bunch.
 "Let's make a yearbook, that would be fun!
 Except that we don't have a clue how it's done.
 Let's strike a committee and meet once a week
 And hold lots of bake sales, that would be neat!"
 We had 58 members and all were enthused,
 But just sat around talking, looking confused.
 We had no advisor, knew not what to do,
 Except for the brilliant Shami Phagoo.
 At last Miss Costello took control of the press,
 'Cause she saw that the book was in total distress.
 She showed everybody what had to be done,
 But when it came time to work, it spoiled our fun.
 We wouldn't come in after school or at lunch,
 We just liked to come Wednesdays to meet in a bunch.
 We drove Miss C. crazy and so stressed her out,
 That at times she was known to resort to a shout.
 It finally came down to Jess, Ish and Phan,
 Who gave it their all with Sara and Sham.

The Day the Well Ran Dry

Have you ever lost something you really searched and looked for?
 And when you get it you don't notice
 You let it slip right through the door.
 The hurt, the pain, the agony you feel, then you stop and think.
 Could this even be real?
 Slowly you start to realize that this was important to you.
 Then you ask the question, what did I just do?
 Distress, sorrow and pain sets in and then you start to cry.
 This reminds me of something my mom used to say,
 "You don't ever miss the water until the well runs dry."
